Dear Sir

I have now to acknowledge the receipt of yours of the 16 inst.

enclosing your check together with the bill of exchange on account of

some mentioned in your letter yet due me by him, which you will please

to collect for me.

I have a certificate of James Smith of his having received payment

for thirty pounds from July 22, 1904, on which there remains a bill

balance, which I will transmit on your next advice

I wish your offer of currency had reached me sooner - I had engaged my

writing in July & as a result disappointed. Now however will be wanted

for this reason. Should I have occasion for any in future, I will let

you know - please to write

Yours

Mr Peter Hinson
Kaskaskia

Missouri
Mar. 1. 1805.

Dear Sir,

I wrote you on the 23rd June in answer to your's of the 10th & had not the pleasure of hearing from you since

I hope you have received the principles debts left with you by McFerson, & payments for the goods left you for sale long before this time, and am greatly disappointed in having received no kind of remittance from that country since I saw you.

I never had any Settlement nor satisfactory statements from McFerson, and I have great cause to apprehend that he has involved my affairs for his own mercenary views. I must know what property he has pretended to acquire during his continuance there in my employ - his exchanging Viego's debt with Mr Jones for lands at Kaskaskias was unauthorized by me & contrary to his instructions & previous arrangements - If you know any thing of the merits of this exchange you will settle it with Mr Jones. You say the lower part of the tract is the best, of course if you think the bargain for my interest, you will close it with Mr Jones. Will this land sell for the amount of Viego's debt & interest?

I cannot at present form any idea of the lands you mention on the other side of the Mississippi. I wish you to give me a more special description & titles alluded to. You know - have been very unfortunate in all my dealings in that quarter.

You have no doubt made all the arrangements necessary for securing to me all the rights to the Lands conveyed to me by yourself -

The Cash that you have received for my account I hope you have a very soon will have remitted me at this place. I will take in payments any quantity of lead at the prices mentioned in your letter. I shall pay the freight to New Orleans for all the lead or peltry you can remit for me to the address of Mr John f Watson, Merchant, of that place, in preference to having either brought to this place.

I have the Ship General Butler here in the stream ready to weigh anchor the moment the water answers which I expect very soon. She goes down light to take in a Cargo at Natches for Liverpool & is to return to Philadelphia or New Orleans with goods for either of those Markets -

Now Sir, this would be an excellent opportunity for you to send Cargoes for me by this Ship if you could have any quantity of lead & peltry near the mouth of the Ohio ready to put on board, on her passage - the freight would be saved - & it would be a means of relieving me from embarrassments - She is commanded by Capt. Canal Lake & my oldest son William ~~James~~ supercargo for me - I wish you could meet her at the junction of the rivers with a strong remittance you might also be of great service in assisting the Captain to procure a proper pilot for the Mississippi which must be done at the falls of Ohio, or in the neighbourhood of Massac or the mouth of the river - and ~~and~~ being on this Subject I wish you to transmit me to this place by the mail, a proper schedule of Goods suitable for your Markets & the times, and what prospect there will be of selling six or eight thousand dollars worth in a short time, for Cash Peltry & Lead or either, as you know that Liverpool is the best place in England to procure such a cargo. As hopes that you will be able to send something handsome for me by the Ship, I shall write you when she

5
sails from this, & my son will have a letter for you, which will be sent over by the mail on his arrival at the Falls. You will then be able to be down some time before she can arrive at the mouth of the Ohio or at L'Anse au 'grace, where they will enquire for you or your agent.

I wish to hear from you soon as possible, and hope your prospects are more clear & bright.

Wishing you health & fortune I am Dear Sir Your's &c

Mr John F Watson

Merchant

New Orleans

Pittsburgh March 8. 1805

Dear sir.

A few weeks ago I received from Mr. Bell copies of your accounts & I am sorry to find that great loss must be sustained by your cargo by the Schooner, and that the Vessel was held bound for upwards of five hundred dollars damages on the Cordage, which I conceived the Captain alone ought to account for.

All my calculations are confounded by being disappointed in receiving remittances from you on account of Molasses' flour in due time. Your barter for Spirits was very unfortunate, it would not answer to send it to Philada. perhaps (if you have not sold it) it will be best to dispose of it at all events - it is certainly cheaper at 100 cts than our whiskey at 66, it ought to take upwards of 25 pct. to reduce it to Whiskey price.

Mr Kenner's delaying payment of his debt has deranged my finances, considerably, as he often assured me of his being prepared to pay. I hope he will now enable you to remit me at least the balance of his bonds & Interest. As he disputes the balance of lead, I have no objection to Suspend it for further enquiry.

I received your two bills on Redden & Maner for 750 doll. each, which were duly honored. I expect your further remittances will be in the same way, & only wish you to draw at short sight I must have money.

Mr Robins & myself had made some arrangements for sending you a cargo of Flour, but are disappointed by scarcity of wheat & previous purchases. Mr Drogg will descend shortly with a considerable quantity.

I have the Ship General Butler ready to descend by the first flood, she is to load at Natchez for Liverpool. My son William will be on board, you will furnish him & Capt. Lake who commands her with every aid in your power at N. Orleans.

Yours sincerely

(signed) James O'Hara.

William C. O'Hara

Pittsburgh 8 Mar. 1865

Enclosed you have Invoices of sundry articles shipped on board the Ship Gen ral Butler on my account, and consigned to you for market.

On your arrival at Louisville you will see such part of your Window Glass and Porter as you can - 10 by 12 & 11 inch p box & 8 by 12 at 15 dolls. per box. and your porter at ten doll. p barrel for each or just noted made payable to me here at 6 mo. after date. Notes or endorsements by Fraithor & Spacie Easton & Eastard Jr. Quincy or any Notes that these Gentln. will receive will be good. If you cannot sell all your glass & porter at Louisville without any detention, you will endeavour to dispose of the remainder at Watakes, and should part be on hand on your leaving that port, deliver the remainder to the Store of Mr Williams for sale & take duplicate receipts, except you may think proper to take a few boxes & barrels to New Orleans to try that market, which may be a good experiment.

As the Ship is to take in a full cargo of cotton at the Watakes for Liverpool - Your Staves & trundels will be shipped so far as they may be used in damage - Should you have a Surgeon at Watakes you will have them sent down or take them on deck if practicable & sold at New Orleans for ready money.

As my particular object in forwarding these few specimens of my own manufacturing to those places, is in order to ascertain how far I may calculate on their custom in future, You will be very particular at each respecting probable demand or consumption, & forward such orders as you may procure for any quantity of glass or porter that may be required, which shall be duly executed.

As the Ship must put to Sea with all possible dispatch, you will be very industrious in your business at Natchez & N. Orleans, & very particular in transmitting all the Notes you may receive, with duplicates of all receipts that you will take for deposit, & your observations generally, & your opinion of the prospect of extending my affairs in that way.

The Ship must clear out from the Custom House in New Orleans for Liverpool, the Cargo (Cotton) will be consigned by Genl. Wilkins, who owns one fourth of the Vessel, to the house of Mann & Bernard there, the staves heading & trunnels I have consigned to you, and the owners consign to you the business of the Ship under command of Captn. Saml Lake, for the Voyage & Home.

You will have bills on Genl Wilkins Consignees at Liverpool for freight of all the Cotton that shall be shipped for his account at Natchez at the rate of five Cents per Ct. out of which you must tonnage on the bottom and all, Port charges under the advice of Mess. Mann & Bernard and of Capt. Lake. taking vouchers for every item of disbursements & keeping proper Statements for Settlement with the Owners for the voyage.

Should Capt. Lake be necessarily detained in port, waiting for freight or other wise, I wish you to visit Bardroster, Birmingham & the neighbouring manufactories and report some knowledge of the genuine prices current. If you will have time to see the Metropolis, I have no objection, the ship however must not suffer damage on any account.

As it will not be necessary to take more Cash from New Orleans than a few guineas for contingent expence on landing you will remit to New Orleans all the money you may receive on my account on your way down

the river or at that port. Mr. Watson, or Mr. Saul Cashier of the Bank will probably have you accommodated, with bills at short sight on India or the City of Washington.

You will receive orders from the Owners sufficient to ship for them at Liverpool to complete a return Cargo in case a full freight cannot be procured in due time.

You will perceive by the Article of Agreement that Genl. Wilkins has only ordered three fourths of freight for Cotton to be paid to you at Liverpool, & orders his own fourth of all charges to be paid for his 1/4 part of the Vessel.

Write by all opportunities Your affectionate

James O'Hara

Capt. Lake weighed anchor at one o'clock March 8th.

Captn Samuel Lake

Pittsburg Mar. 8. 1855.

Dear Sir,

You will please to proceed with the Ship General Butler under your command with out any delay to the city of Natchez, & deliver your letters to Mr. Charles Wilkins or his Agent there By the enclosed Article of Agreement you will perceive that you are to take in a Cargoe of Cotton for Genl. Wilkins to Liverpool..

Your vessel is well calculated for stowing - with all your power, Scurws will no doubt be furnished you for this purpose - we expect by your particular exertions she will take in five hundred full bales of Cotton - the Staves on board for Mr. Olara will be used only for Runnage, Nothing must interfere with the Stowage of a Complete Cargo of Cotton. Capt. Beebe the builder says she will take in Six hundred bales, in this however we are not sanguine - Should you have any Staves or Lumber remaining you will probably find it convenient to carry them on deck for N. Orleans to Market. Mr. Wm. C. Olara to whom the Ship is consigned will furnish such necessaries as may be required at Natchez, & purchase additional Cable & Anchor at New Orleans, & Port in addition to your Salt beef on board to make up your requisition of this article & such other necessaries for the voyage as you may consider indispensable.

Mr. Shrodes your pilot has engaged for Louisville or Natchez at your option, we wish you to get a pilot for the Mississippi at the Mills, you will engage one at L'ance la grace or New Madrid at all events, & in this case you will take a pilot from Natchez to that place. Mr. Olara has

business to transact at Louisville, but must not detain you one moment, being extremely anxious to get your Cargo to Liverpool soon as possible. We are induced to repeat that much depends on your manly industry & exertions, to get to Sea with all possible dispatch

Your Cotton is consigned by Genl Wilkins to the house of Mann & Bernard in Liverpool who will have your Ship discharged in due time. She will be advertised for Freight or Charter, for Philadelphia, N. Orleans or any port in the U. States, & should this arrangement not succeed in reasonable time Mr. O'Hara will have orders to return Cargo for the Owners, it is unnecessary for us in this place to remind you of the particular attention necessary for you to pay in clearing out or entering any port, that your papers may be regularly official according with the laws, & above all that you will not suffer or board any Stores, wares or articles of any kind, that can possibly be conceived to be contraband of war, no attempt to touch at any prohibited Port, that we may escape the disagreeable consequences that would probably be the result of litigious disputes

You will please to advise us of your progress & prospects often as possible. &c

James O'Hara

Sir,

Major Craig handed me your letter of the 23rd Ult.

Agreeably to your request I have forwarded by Mr Sanders, two boxes of glass 8 by 10 for which you will be pleased to pay.

I have also forwarded by Mr Sanders directed to your Agent at Charleston, two boxes of Window Glass 8 by 10, which you may either dispose of for my account, on a commission of five per cent, or take on a credit of Six months at the Pittsburgh price, which you have ordered. Any further orders you may please to forward from time to time, shall be promptly attended to

Pittsburg 19 April 1835

dear Sir,

Your Suspicion respecting your glass was wrong, it was duly ordered & reported to be on hand, but find that owing to the perfidy of Price, my Superintendent & Wendt the foreman, maker in plotting to abandon the work, the large size glass is not made, nor do I expect it can be made before September.

The necessary attention has been paid to your defence & ainst the State claim - The Register had again written on the Subject. Price made out & transmitted a full & clear statement of all fines & remissions, which is conceived to be satisfactory within six or seven pounds, and Bridson gives names of persons in the neighbourhood who can account for this deficiency. I shall pay the due attention to this or any other of your concerns here.

I wish you would seel my undivided half of Six thousand ac res of land in your country. You have the papers in your hands & may have a division made. You say there's several settlers on it. perhaps they would purchase. Will it not bring a dollar per acre & pay a good commission & charges? I cannot sell your tract on west side's for any thing. Mr Blaney talked once of exchanging his house in this place for my Kentucky lands, you never said anything on this subject.

We are all in good health & spirits here. Genl Wilkinson is expected in a few days, for St Louis, where he takes post as Governor of upper

Louisiana, Commander in Chief and Superintendent of Indian affairs - he takes his family along

Offer my very best respects to Mrs Morrison & believe me to be Yours

Dear Sir

Presuming that your Situation at Baltimore is such as would not justify your coming to settle in this country for any present prospect, I take this method to consult you on the mode that would be best for having a few good sober Glass blowers employed for my Works at this place, being tired & disgusted with some of those I have been poster'd with for years past. Fredk Wendt ignorant, obstinate & seditious is gone off down this river. I do not know where, and has taken three others with him, still more ignorant than himself.

My Works are now clear of all incumbrances in that way, & ready to commence in the new

Now I wish to know candidly your mind on this subject, whether you have any desire of your own to see this place with a few good hands, or whether you will engage to send me on four or five such as you can recommend, for which you shall have ample compensation for your trouble. They shall be treated in the best manner - I pay all in ready money and settle every month - their expence in coming up will be advanced and any agreement you may like will be complied with on my part.

I wish to hear from you soon to know your proposals in either of these Cases. Or if you find it more accommodat_g for the workmen to come on immediately, they shall be employed on their arrival here. Single or men with small families would be most convenient

A letter has been written to Nicholas Swerer who has been a Glass blower to come to this place, as I am informed he is disengaged, I wish you to add another favor to the number by enquiring for this man as he is of good report & send him on to me with assurance that he shall have immediate employ on good terms - You will advance money to bring him here on account, until he can pay, as the others have done.

You will find Swerer by enquiring at Mr Hoffman's (I think) a Grocer's in second st opposite Christ Church, or at Mr Wetland's, who keeps a Grocery shop in North 3d or 4th. you will see by the Directory - he manages the Kensington Glass Works - If you can forward Swerer & two or

three other good blowers that he will recommend you will serve me in a very essential way, as I have been necessitated to turn away several Ungovernables, whom I must replace at my works.

I am happy to inform you that there is now a place open for you at these works, where you can get steady employment and good pay on the same conditions as the other hands.

Your answer is requested soon as possible, so that the necessary arrangements may be made.

Dear Sir,

Being informed by James that you may be in Philadelphia, I wish you to do me another favour. It is expected that the new Ship General Butler is now taking in a cargo of cotton at the Matoes for Liverpool, and that she will sail from New Orleans before the 1. May. She is admired as a very strong well built vessel. the Ship & Cargo entirely owned by John Wilkins junr & myself, commanded by Capt Lake & well found in all respects.

I wish to have the bottom insured in Philada for ten thousand dollars, say from New Orleans to Liverpool there, & from thence to any port in the United States. Will you please to enquire & inform me how this can be effected on the best terms, as I wish to have it done in due time. I wish also that you would write to Wm. C. O'Hara at Liverpool & procure for him each freight as you can obtain, it is probable the ship will return to Philada.

I will write to you more fully in reply to your answer.

Dear Sir

You may probably be surprized at the charge of twenty five boxes of Class by Mr Sa l as I am not certain you have received them - the State of the river having been so precarious that Mr Saul might have been prevented from landing at Limestone

Being now very hard run by my disbursements, I wish you to remit me by the very first opportunity, such part of the amount as you may think proper, and should you have account for Window Glass - send your Orders - I have yet a quantity of excellent quality which will fall short of supply, as the Works are now out & abandoned by the perfidy of Price the Superintendant & Wendt the Foreman Maker, & cannot go on again till November. let us hear from you

Dear Sir,

I received your letter on Insurance which I thank you for. We hear of the Ship Genl Butler having arrived at the Natchez on the 20th. ult. her cargo of cotton was ready to put on board, and we have no doubt but she has sailed before this time from New Orleans.

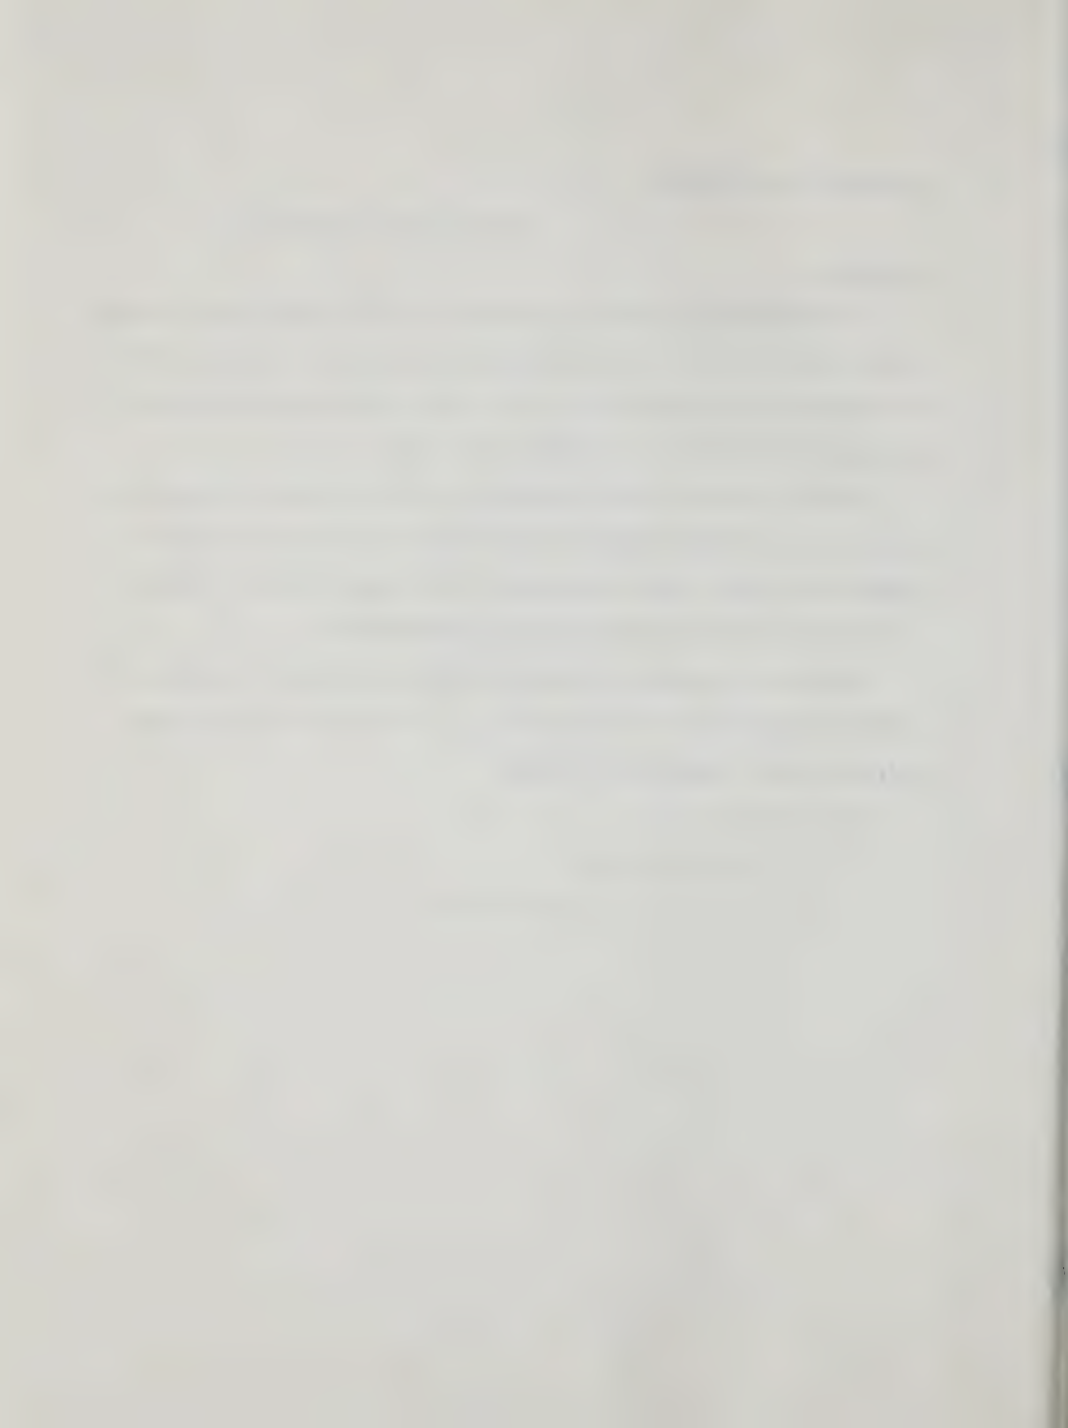

You will please to effect Insurance on this beautiful new Vessel to amount of ten thousand dollars on the cotton only the cargo will be insured in England. This will be done for the voyage from New Orleans to Liverpool & back to any port in the United States.

You must not neglect to write to William at Liverpool & procure all preference you can for return freight as I do not wish to lay out money sufficient for a cargo at this time!

Let me hear from you

Sir,

I received your's of the 11th - in answer to mine of the 19th ulto. and can assure ~~you~~ you that no difficulty shall arise on the Subject of Salary as stated in your letter; provided good and decent hands can be immediately procured. Their terms shall not be worse than the usual terms at Baltimore, they shall be paid in Cash monthly, or in shorter time if necessary.

My Works have been improving Seven years, and must be preserved in - there is no person concerned with me in any respect. I have a large stock of Materials on hand, and the tools complete, a Horse mill for pounding, Pot Ash Work, and Smith's shop, all on the ground belonging to the works in operation. Coal & wood are now laying in for the Winter, the pots are in hand, fifty will be finished by Fallow in a few days, who made for the last fire, my wish is to have at least one hundred before hand.

The last fire continued very good eight months, the benches of our sand stone remained unimpaired, but the ~~quality~~ and sullen ignorance of Wendt, who always had a mutiny on the fires going out, rendered it necessary to stop. I have been often compelled to dismiss Wendt on account of his malicious natural disposition, and was induced to employ him by intercessions of connections that did not know him. He wished to keep the Works or have a Salary by the year; my knowledge of his dishonesty and ignorance forbade either.

I have continued old Filves out of charity, he is assisting to prepare for Pots, but no engagement is positively made with any except Smith who has a promise he is a good & faithful Hand.

Therefore you may engage & bring up without delay six or eight such Hands as you have described, single man or men with very small families would be preferred for obvious reasons - this however you will be governed in according to your opportunity of Selecting. Mr. Swarer at Philadelphia proposed some time ago with another Hand but are now engaged to come.

When the fire is out all the Blowers (able to work) will be employed in preparing again & will have twenty dollars per month - Other Hands 16 to 18 dollars - If you have any favorite steady mixer or Pounder, in whom you have perfect confidence, and without families, bring them along, otherwise I have them tolerably good.

Having so many pots ready; your next furnace must be on my old proportion except that you can prepare for ten pots instead of eight. I shall not touch the furnace 'till you arrive. I wish however to blow on the 1st of September - my hollow ware almost out, and Window glass going fast. I began on the 1st. of August last during the last fall I had sixty barrels of clay brought from near Fordsboro, and have the goods & part in store very good - and in order to give you an opportunity of trying whether clay got by yourself from Baltimore would be as good or better, I wish you to have two or three wagon loads picked clean & brought up. you know it must come in as large & solid lumps as possible & in flour barrels well hooped & nailed. Our pots made of the Jersey Clay, stood in the fire from three to thirteen weeks, when put in did well in an age. the whitest Delaware clay was reckoned the best.

For the purpose of accomplishing these different objects, you will receive enclosed my bill on Melven, Hale & Davidson of Philad. for three hundred dollars on account the money that you may advance for bringing up the hands, will not be required untill they can conveniently settle - Should your money fall short, part carriage of the clay will be made payable here

I am at a loss how to advise you respecting the Gentleman you mention. It certainly is to be greatly regretted that such genius & experience should not meet with encouragement and ample compensation: I know of no opportunity for displaying these useful talents in this country at present. Gunpowder has been made with success on our waters. Salt Petre being in great abundance, We have no lead mines to the Westward nearer than the Illinois on the Mississippi, it is delivered here from a mine at 10 doll. p hundred. The manufacturing of Gunpowder - Shot on a proper establishment will be a great object here, or might be at present. -

We have not yet discovered any mineral in this country justifying the expence of extracting from it, but this may be owing to the superficial manner in which it has been explored, or want of judgment in making the experiments - I seriously wish that such a Character as you describe could be invited with propriety. Nothing is wanting on my part but the objects worthy his notice, as I have nothing more at heart than to see our researches succeed and our manufactories flourish.

I shall at all events be glad to see your friend accompany you here, should he find it convenient.

Gentlemen,

I am enclos'd with your's of the 17. Inst. & acknowledge the transaction with Major Swan, to be very proper.

I have drawn on you this day in favor of Frederic M. Juchung of Baltimore for three hundred dollars at sight, and will draw on the 6th June for the balance of S. Meeker's acceptance, at ten days after sight.

I wish you to furnish me with Mrs. Jane Butlers account, from the 1st of October last 'till the 1st July including all Interest &c. that will be then due as she wishes to know what may be wanting to buy another share, in the Bank and whether you would recommend to her to purchase in the Philada Bank.

Yours sincerely

Sir.

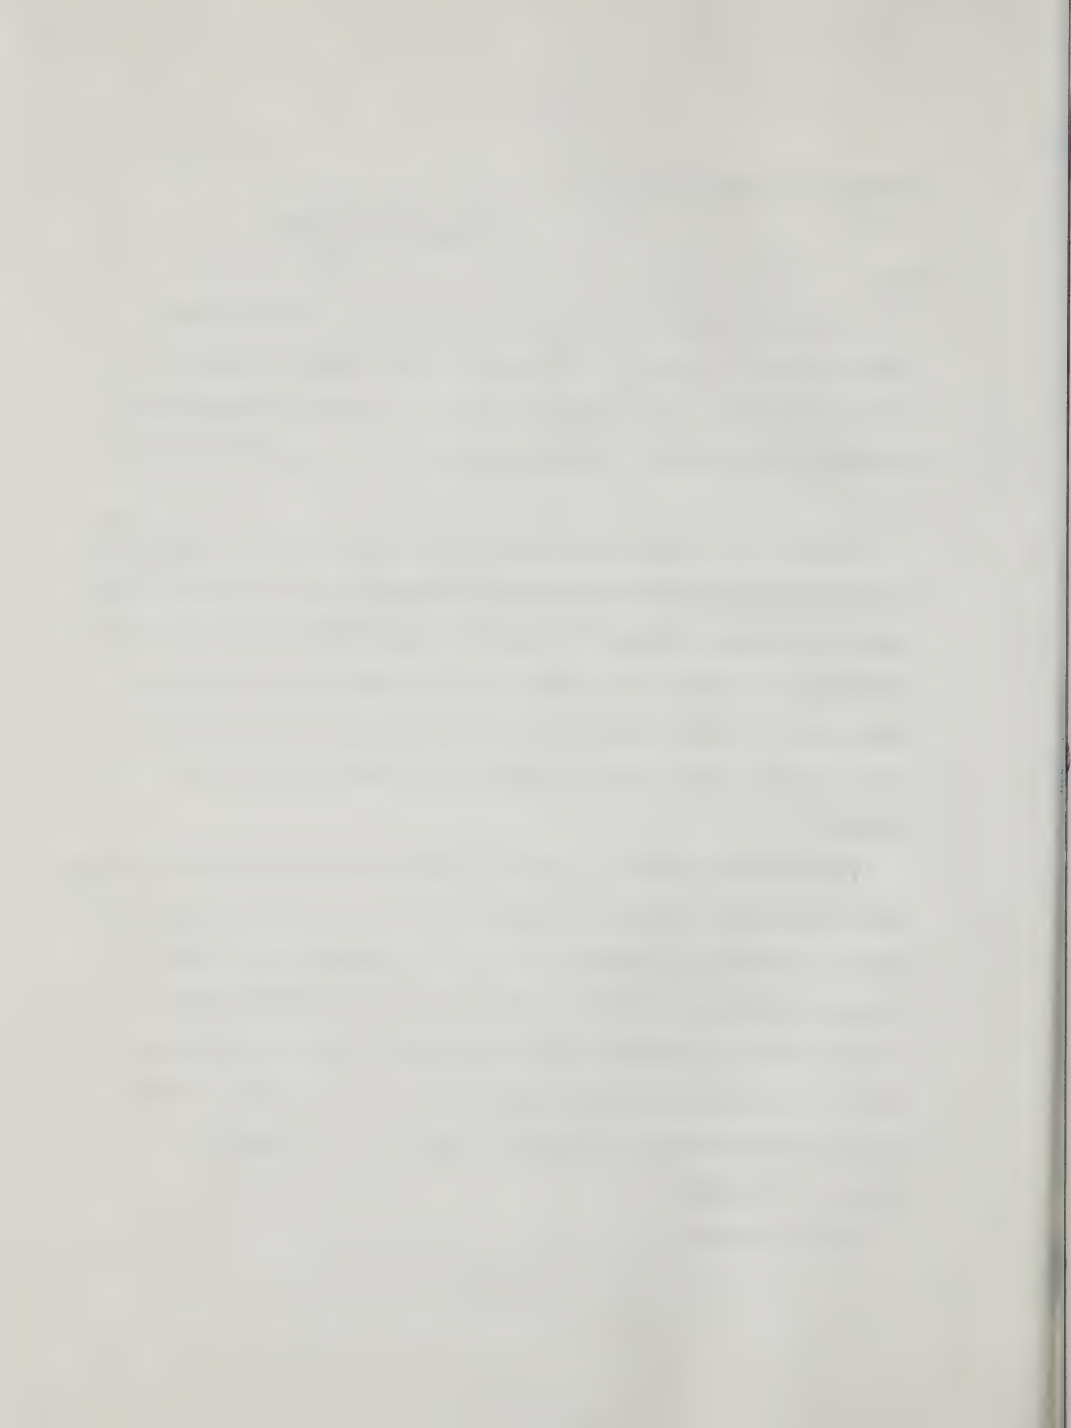

I received yours of the 4th instant covering my account current with you, all very correct, and wrote you on the 20th requesting you to send me one quarter Cask of your best Sherry & promised to prepare you with funds to meet certain demands authorized - to be made on you on my account.

I have now to request you to send me two small Bales of good ^{quality} ~~quality~~ & wish them forwarded by the Stage from Tomlinson's. I have had them all bales of 1000 each very good - there are called Claret Corks, I want them for porter, but they must be good and if you cannot get them in small bales, you will send me on the common large bale well chosen, say (in this case) 150 gross, this must come by the common waggon soon as possible.

You will also please to send me one Canister of 12 lb Imperial, 12 lb best Hyson & 12 lb Souchong tea, for private use. You have enclosed a bill on McGwen Hale & Davidson for two hundred dollars and you shall be always prepared on due notice for meeting any arrangements that you will permit me to impose on your friendship. Let me hear from you & say something respecting the Glassmakers I wrote you about. Make no agreement with Swerer without letting me know - as I am aware of certain interferences

Yours sincerely

Sir,

We received your's of the 29th April from Hatchers, and from the very favourable reports of the Ship Genl Butler on her passage down the river and being so highly approved of on Inspection at the city of Hatchers, we are induced to offer her for sale at Liverpool - You are therefore authorized to sell the Ship with all her appurtenances on the best terms in your power consistent with your knowledge of her cost & value, we do not wish to Sell at any considerable loss, but being engaged in building another & desirous to encourage Ship building at this place, we are willing to Sell without profit.

A credit that will be approved of by Messrs. Mann Bernard & Co may be given for six months, payable by bills on Philadelphia, or by payment by bills on Liverpool. - Should this letter not get to hand in due time, before you may agree for freight or charter, you will pursue your former instructions & the enclosed orders from us or either.

Your's very sincerely James O'Hara

John Wilkins Jr.

Capt. Samuel Lake

Pittsburgh 9. June 1835

Sir

We acknowledge the receipt of your letter of the 29. April from Hatchez - are perfectly satisfied with your management of the Ship descending the rivers, and hope you will receive this at Liverpool in good health & Spirits.

You will perceive by our orders to Wm. C. O'Hara that we wish to dispose of the Ship Genl. Butler - If she will not sell agreeably to his instructions, our first arrangements will be pursued, and in case neither sales nor freight can be procured, charges will be laid in for the same according to his orders by this date.

In case of Sales you will dispose of your people according to their agreements. There is & will be drawn in Philadelphia untill your order stoppage from H. W. Mohlenburgh, Merchant for Wm. Hess jr. from 21. Feb. last \$17.50/100 p month for Aaron Bryant & Jeremiah Mathiss from 25 Feb. ea 13 dis p mo.

Mrs. Lake and the Family are all well. Capt. Boobe has moved down the Ohio two miles, he is there building another vessel about 90 tons.

We shall be anxious to hear from you.

Your sincere friends & hble Servs

James O'Hara

Pittsburgh 9 June 1865

I received yours of the 29 April from Hatches well pleased, - that you got down safe and in very good time.

Should you be disappointed in unloading of the ship, or in procuring return freight at Liverpool in reasonable time, you will make up the deficiency of cargo by shipping Salt on the joint account of the owners. Govl Wilkins will probably order Merchandise on his account and you will lay in for me 120 pieces of Blue London Stroud and 50 pieces of 2 1/2 and 3 point Match Coat blankets - the Match Coats must be blue Stripe.

For the balance that will then remain in your hands of the outward freight, you will purchase a few cases of Manchester goods of the newest patterns, & Such other articles as you may think will sell well & afford good profit - and should you wish to exceed the amount of your Cash Messrs Mann Bernard & Co will probably procure you a credit of five or six thousand dollars for 12 mo. enclosed you have a few lines for that House, which you will deliver or not at your option. Insurance is ordered to be effected on the Ship at Philadelphia, for the voyage out and back to any Port in the United States.

We would prefer sales of the Vessel to any other arrangement that can be made at present, the cost upwards of twelve thousand dollars & must not go for less than ten thousand dollars - and as you have insight for any port Eastward of Philadelphia you will endeavour to sell on your arrival

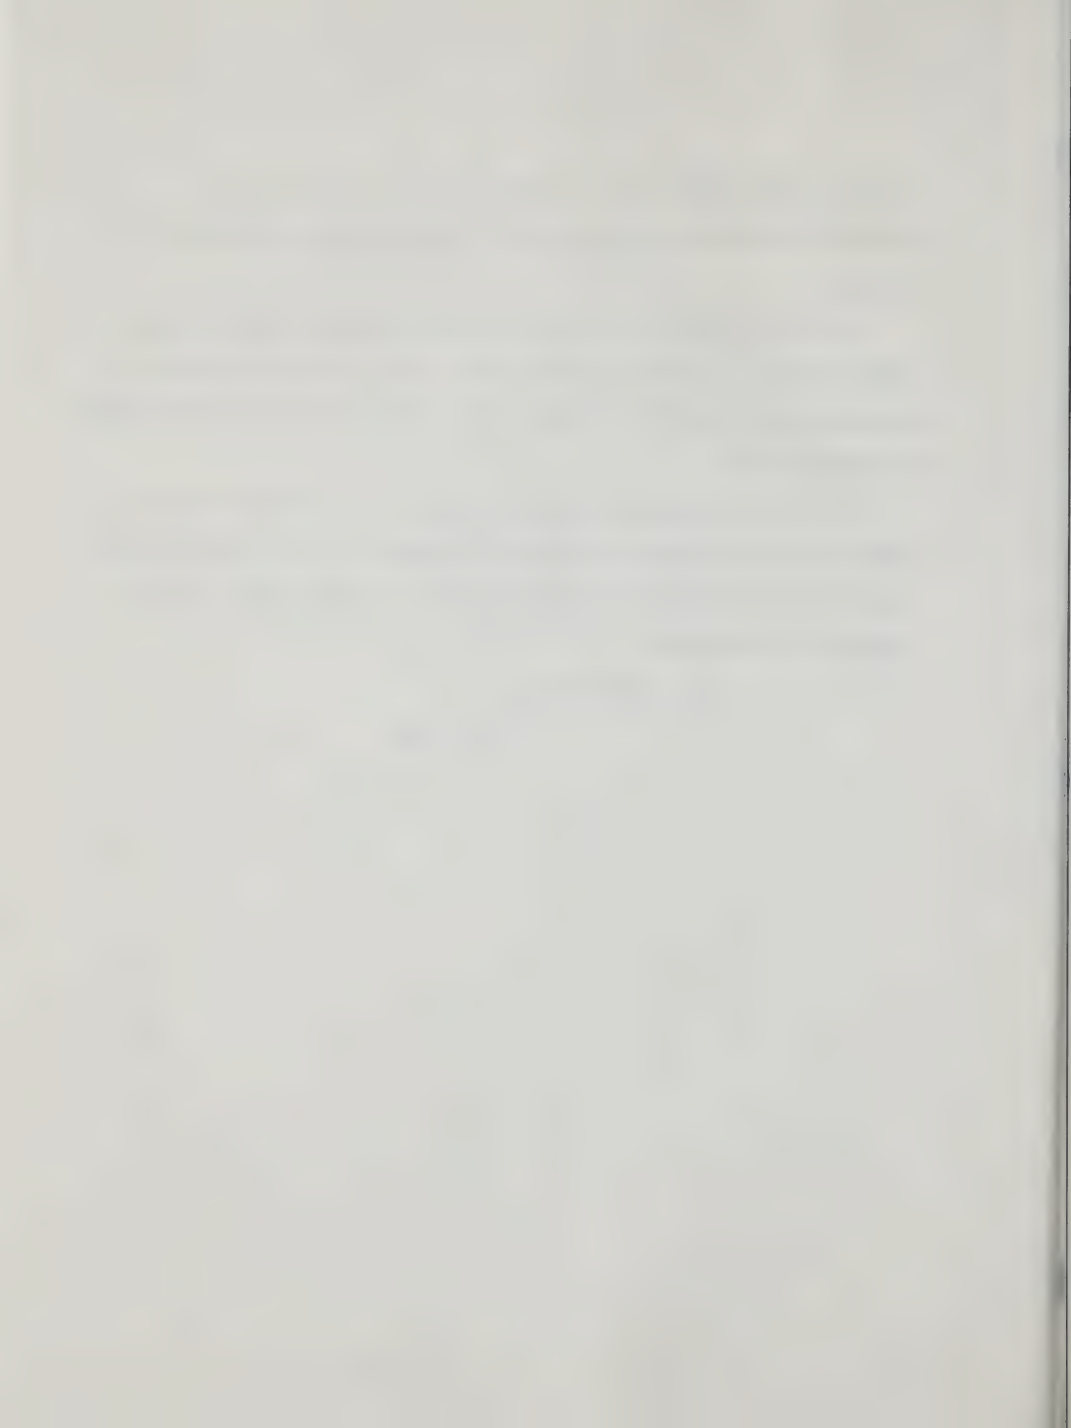

she will probably bring more than 12000 \$His in this we are not sanguine, but believe she is well worth this sum to persons willing to purchase.

In case of sales you will take passage in any good Vessel of the United States for Philada, and the orders for drygoods will require no attention. Capt Lake will probably return with you, whom we should be very agreeable

When you can ascertain nearly the amount of your Shipments for the owners of the account you will advise them either in person or such manner as will enable him to effect Insurance Write him by N. York Baltimore & to Philada.

Your affectionate

James Wilson

Pittsburg 11 June 1835

dear Sir,

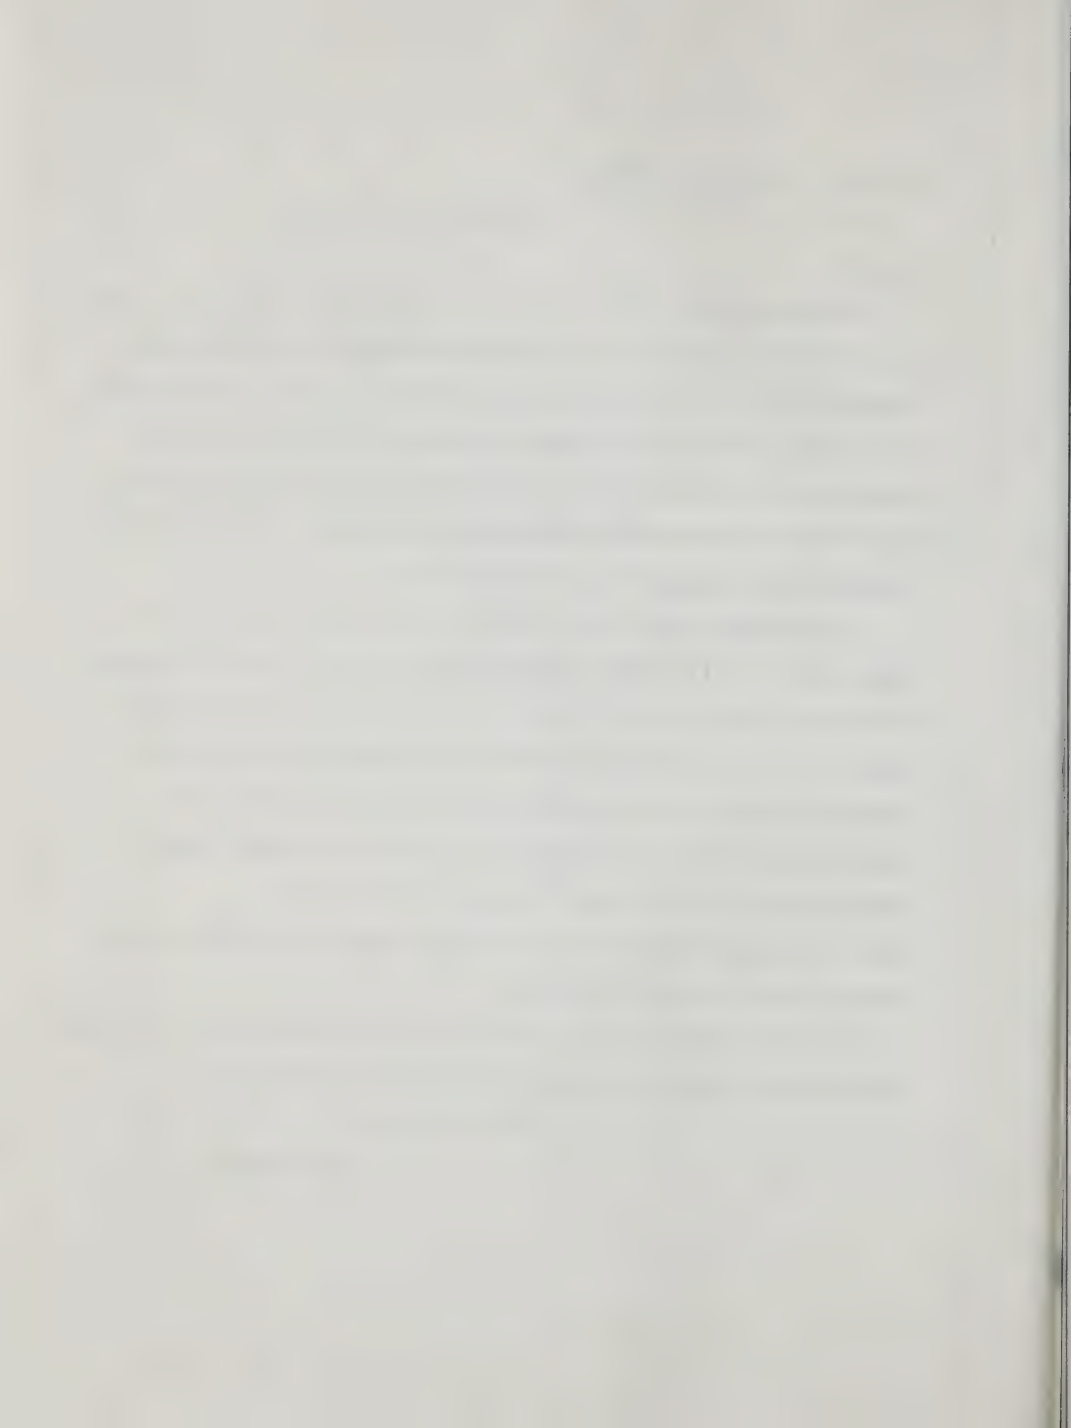

I received your's of the 3. instant and acknowledge your proposals in every respect - Having a very good recommendation of Nicholas Sworer, I agree to his terms in advancing fifty dollars on account, & pay him one half of his expenses to this place. he shall have a house & coal fuel free, he will be paid wages when not blowing, and when in blast he will be paid by the poice as other best workmen in Cash monthly or oftener if required, he must engage for one year at least.

he may enquire what hands he can get to come with him, but must not engage any untill I see him, or till he hears from me. I am now preparing and expect to blow on the 1st Sept. - Before Sworer starts I wish him to bring down Six or eight Waggon loads of the proper clay for pots from near Fordontown, it must be picked clean in solid lumps, white as possible and packed in five barrels each - and you will please to furnish money for his expence. You will have t is clay stored untill fall & send it on when carriage will be low, the sooner the better, it must not be in the frost.

this will employ Sworer but very few days & you will make arrangements, for his coming to this place, soon after as may be convenient.

Yours Sincerely

Dear Sir,

I wrote you on the 21. May, and requested that you would have Insurance effected on the Ship Conl. Butler from New Orleans to and at Liverpool and back to any port in the United States, and have no doubt of the insurance being done.

Enclosed you will receive letters for Wm. C. O'Hara and Capt. Lake which I wish you to forward without any delay, as I have some doubts of their getting to England in time to meet the vessel, as she got down & loaded sooner than I expected.

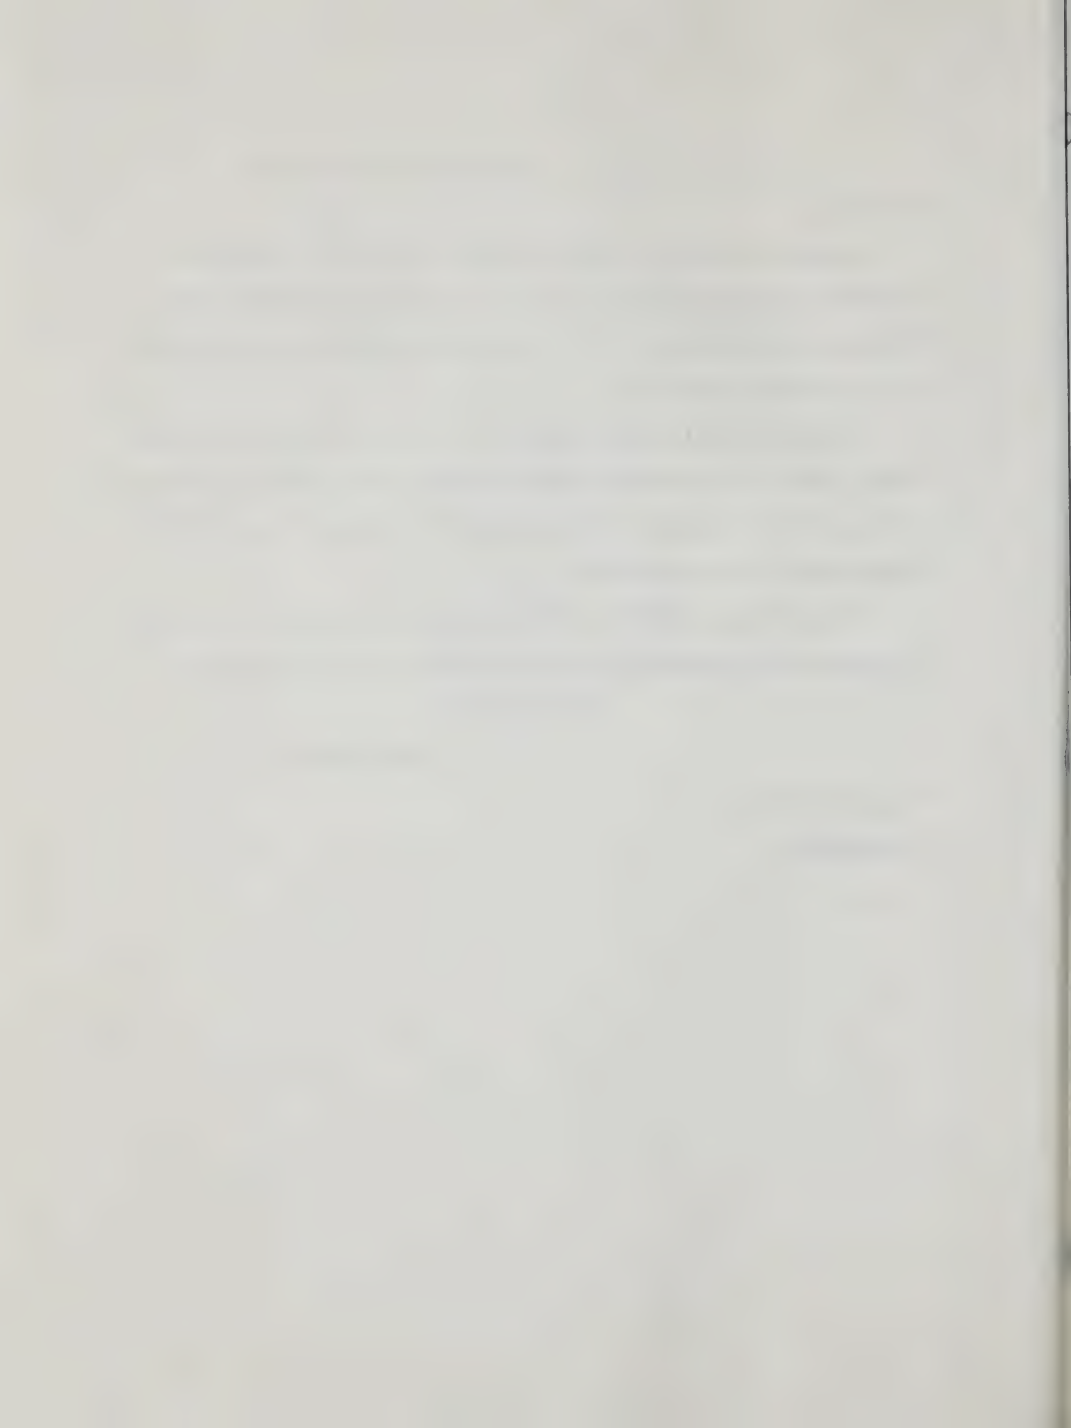

You will judge whether it will be best to forward them to New York for the packet or wait for any vessel ready to sail for Liverpool.

Yours sincerely

dear Sir,

I am favor'd with your letter of the 14th of May and I do assure you that I am very sorry for the occasion.

Your loss by the fire and the consequent inconvenience must be great.

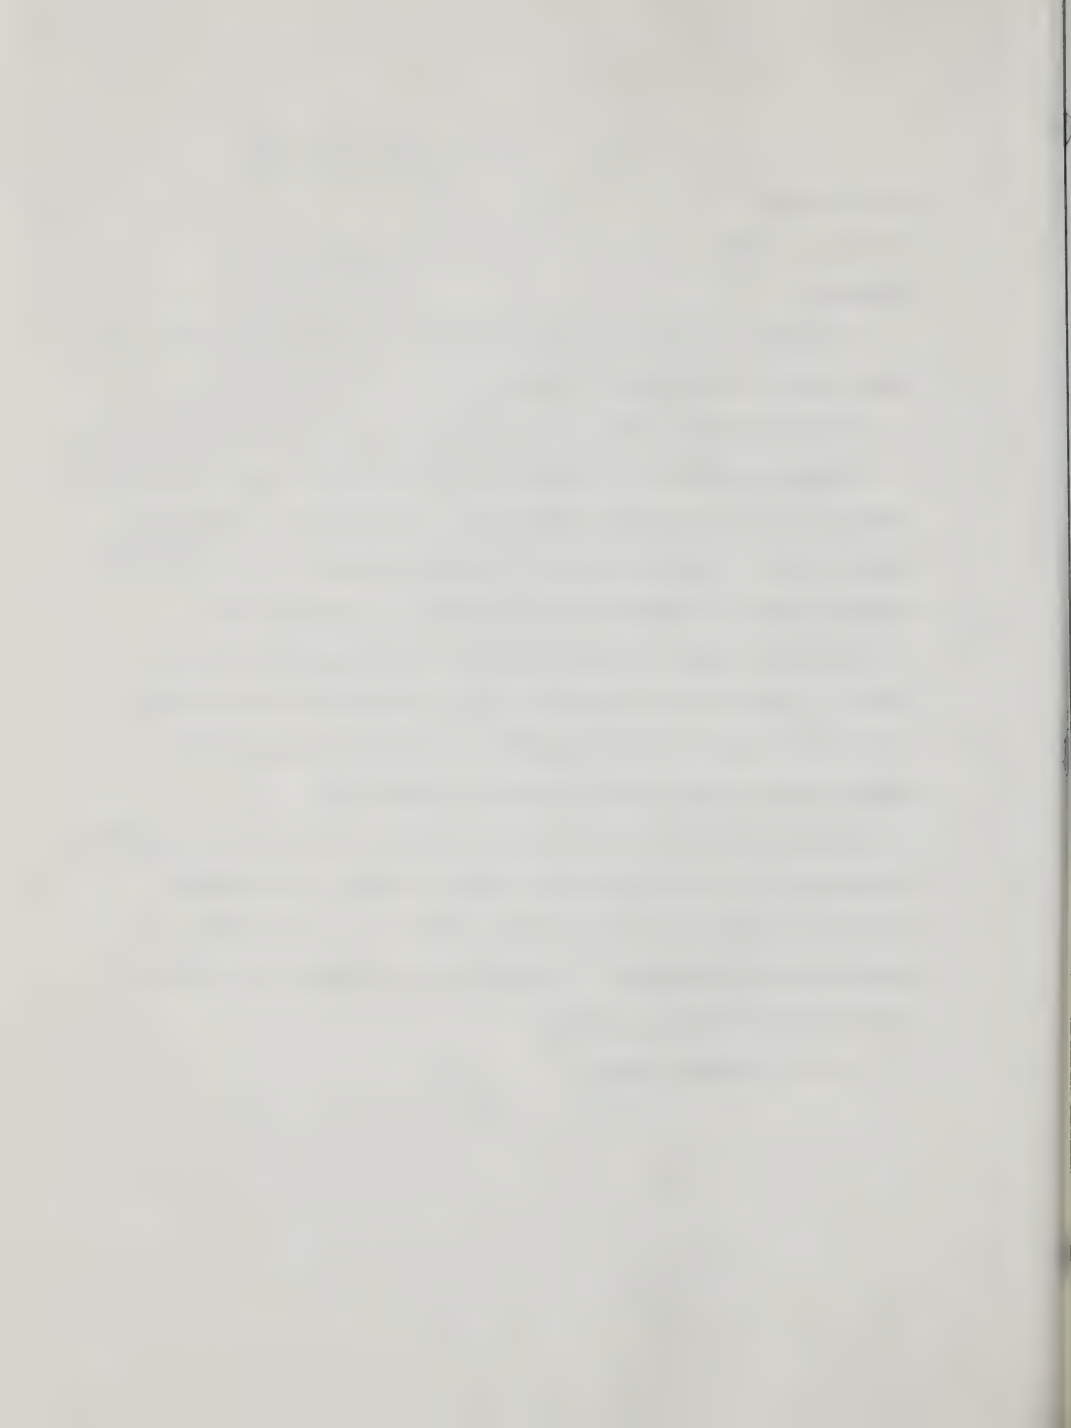

I hasten to forward your glass as near to your orders as possible the works being now out of blast Colo Cushing & Capt Wilkinson cheerfully offered to take it in their boats for you to St. Louis - it is delivered to Colo. Cushing & I expect you will receive it in good order.

You will perceive that all the sizes are not agreeable to your orders. I send the whole number of boxes - that you may choose as much as will suit you & sell the remainder - I will be making glass in September & can then furnish all sizes you may order.

You will please to let us have your further orders such as convenient and extend to such quantity as you think will sell in that country, exclusive of your own demand for your private use. Enclosed you will see my price at this place I shall have large quantities of bottles, and other hollow glass in Autumn.

I am with sincere regard

James Morrison Esq.

Lexington K.

Richmond June 18. 1797.

dear Sir,

I received yours of the 14th -- Sanders glass was put up before yours was ordered. there is no doubt of your getting it in the fall.

Your question on the probable expence of erecting Glass Works may be answered correctly. My works you know stand at the Coal pit on the river bank. I was engaged one year before we made glass, the first bottle (a very ordinary one) cost me 10000 dollars this bottle was all the blast produced; had the works pulled down, & began in the new & continued from 1797 till my disbursements exceeded 50000 dollars, Major Craig gave up his connection in them last year. there is no person concerned with me at present. I have not been able to reduce the balance due me by this manufactory under 30,000 dollars, exclusive of the fee Simple property.

You are safe in your bet, they cannot make glass with propriety before the 1st of June next. the clay will not bear handling in cold weather, & no good workman wishes to employ pots in less than six Months after they are made.

My works has not averaged 1000 dollars worth ~~per~~ p month with eight blowers perfectly supported.

You shall see my books when you arrive

I am glad you have recollected my land, you will do~~it~~ with it whatever you may find it for my advantage. Mr. ~~John~~ Birney was here two weeks & still wishes to exchange his house in this place for mine in that country, I

have assured him that I would leave the closing of the bargain entirely to you, & you are hereby authorized to sell or exchange the whole or any part of my 3000 Acres in Nelson or Jefferson County in Kentucky, either for cash or property in this Country, the patents are in your hands.

Mr. Pirney values his house here at 32 or 3300 dollars, it is not worth this money - you may have an exchange made not with standing, I will wait for balance as long as he pleases paying Interest.

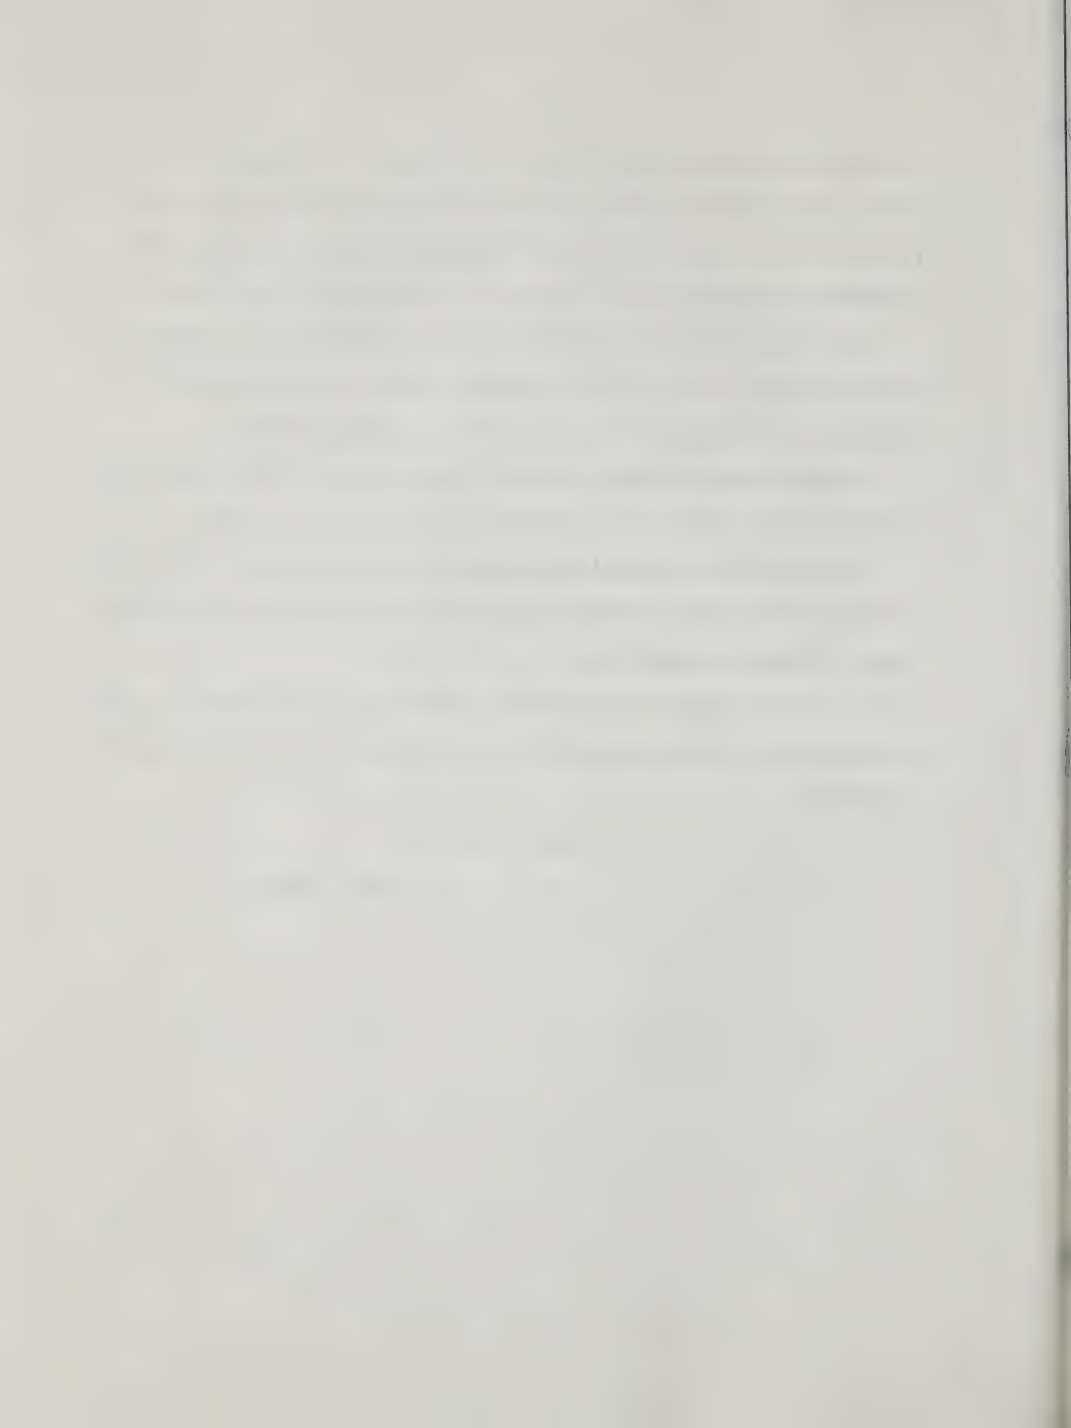

I shall certainly attend to your business as the office & will pay, should any thing appear due, or indispensable to avoid disputes.

You have James Sullivan's conveyance to Robert Campbell of the tract of land at the mouth of Peters creek, I beg you to send it to me without delay, I cannot do without it.

I wish you Success in your Snuff manufactory I will furnish you with any quantity of bottles, pence or half pence at one dollar a dozen, each or either.

Yours sincerely

Dear Sir,

I am apprehensive that you have not received my letter of the 31st May respecting my request for one qr. each Sherry & desiring that you would send me two small bales of good cork by the Stage, or one large bale by the very first road waggon - My Porter business is now at an unfavorable Stand wanting this article, you had a bill on McKwen, Hale & Davidson, enclosed in that letter for two hundred dollars.

By a letter received this day from Capt. Lake of the Ship Genl Butler from New Orleans -in orders that the half pay of Jeremiah Lemiss, paid to his wife shall be stopped, as he deserted from the ship in that port, on the 29 of May last.

In your letter you inform me that Sworer the Glass Blower had agreed to my terms & is to come on, that you sent him for clay up the Delaware. I wish you may receive the clay, & forward on a wagon load of it, soon as possible, & keep the remainder till carriage will be at five dollars p Cu & I seriously wish you could stop Sworer from coming up, I have very particular reasons for urging this wish; make him any reasonable indemnification & save him the trouble of moving if not too late. I was under the necessity of overstocking my works with ware, & I was decieved in respect to this man

Manage this in such way as his sensibility may not be hurt, if he has Set out it's very well.

Send me a box of good corks, if you have not already sent them.

I am favored with your's of the 20th Uto. by Mr. Anclung, and highly approve proposition, and shall endeavour to adopt it.

I do not conceive it expedient to send any person to Europe at present

Your last proposal is flattering, there is no person concerned with me in the Pittsburgh Glass works and I am well convinced that no person ever will be concerned in them, until my property is liquidated. I have been sinking by them since 1797 and the works now owe upwards of thirty thousand dollars to myself alone they must pay me off, and then you shall have the first offer, should I be disposed to have a partner in this manufactory.

Dear Sir:

I received your's of the 4th inst and am well pleased that you have forwarded part of the clay, the carriage is lower than I expected the remainder you may detain, untill you can find carriage a 4.50

I wrote you last post & intimated that Swarer would now be too late being full furnished with hands - however he must not suffer any loss by his propertor to come and if he has it really at heart he ought to be gratified, though I am disappointed respecting him.

Dear Sir,

Turnbull, Mannie & Co to my very great Surprise have brought Suit against me as Contractor for fifty thousand rations of provisions, which they say was bought by John Bradshaw in 1767 in Kentucky, and paid for by them and issued to the troops, and placed to the credit of my Contract -- they undertake to prove that they paid all Bradshaws bills drawn for the purchasing of these provisions, the whole including the account which you had Settled here before Richard Butler, Eli Williams & John Wilkins (which I then paid) & their claim now exceeds Sixteen thousand

Now sir, as you know all this to be an infamous speculation -- being perfectly acquainted with ever circumstance respecting these purchases payments and issues, it is absolutely necessary for me to have you present at the trial. This cause is positively to be tried before the Supreme Court in Philada on the 26 day of August next of which I have received notice by my lawyers Rawle & Tilman

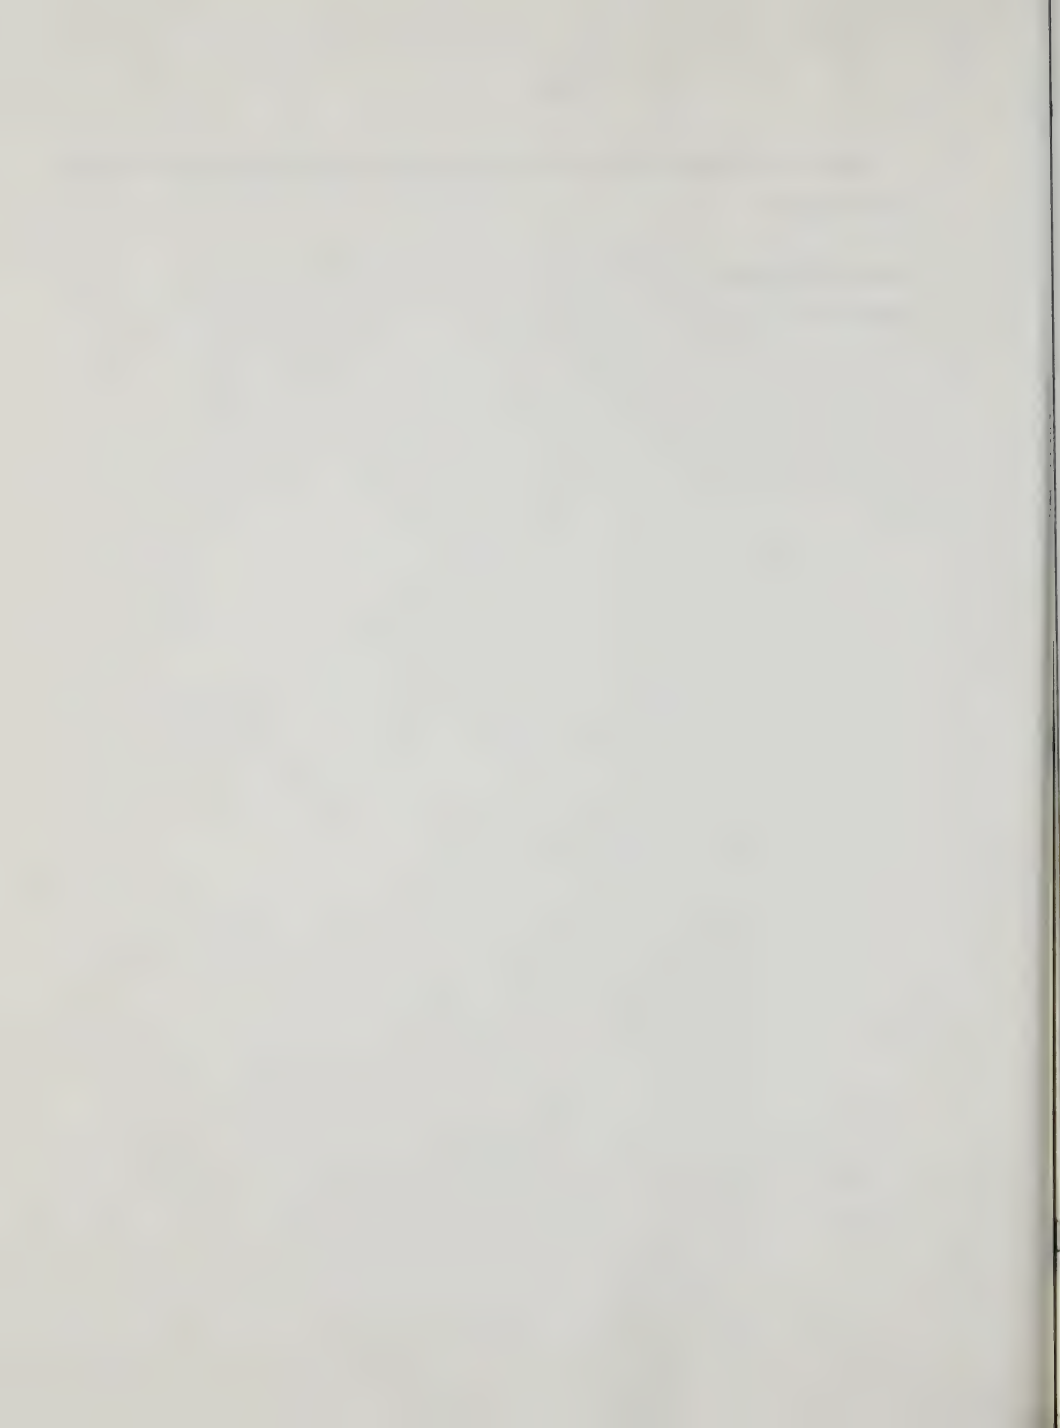

It may be with reluctance that you will undertake this Journey, but having been so long absent from your friends & private affairs in this country, I hope a visit among us will be very agreeable to you, and when you are to see the absolute necessity of having your personal presence in order to defeat the plundering Schemes of the Plaintiffs in this extraordinary cause, I am perfectly confident that you will not hesitate in setting out with out delay, so as to be in Philada on the 20th of August next when I shall wait your arrival.

All your friends will be sorry that they will not be able to see you

Pittsburgh July 30. 1885

Sir,

I remain a friend of the M. & L. instant and expect you will easily surmount all your present difficulties

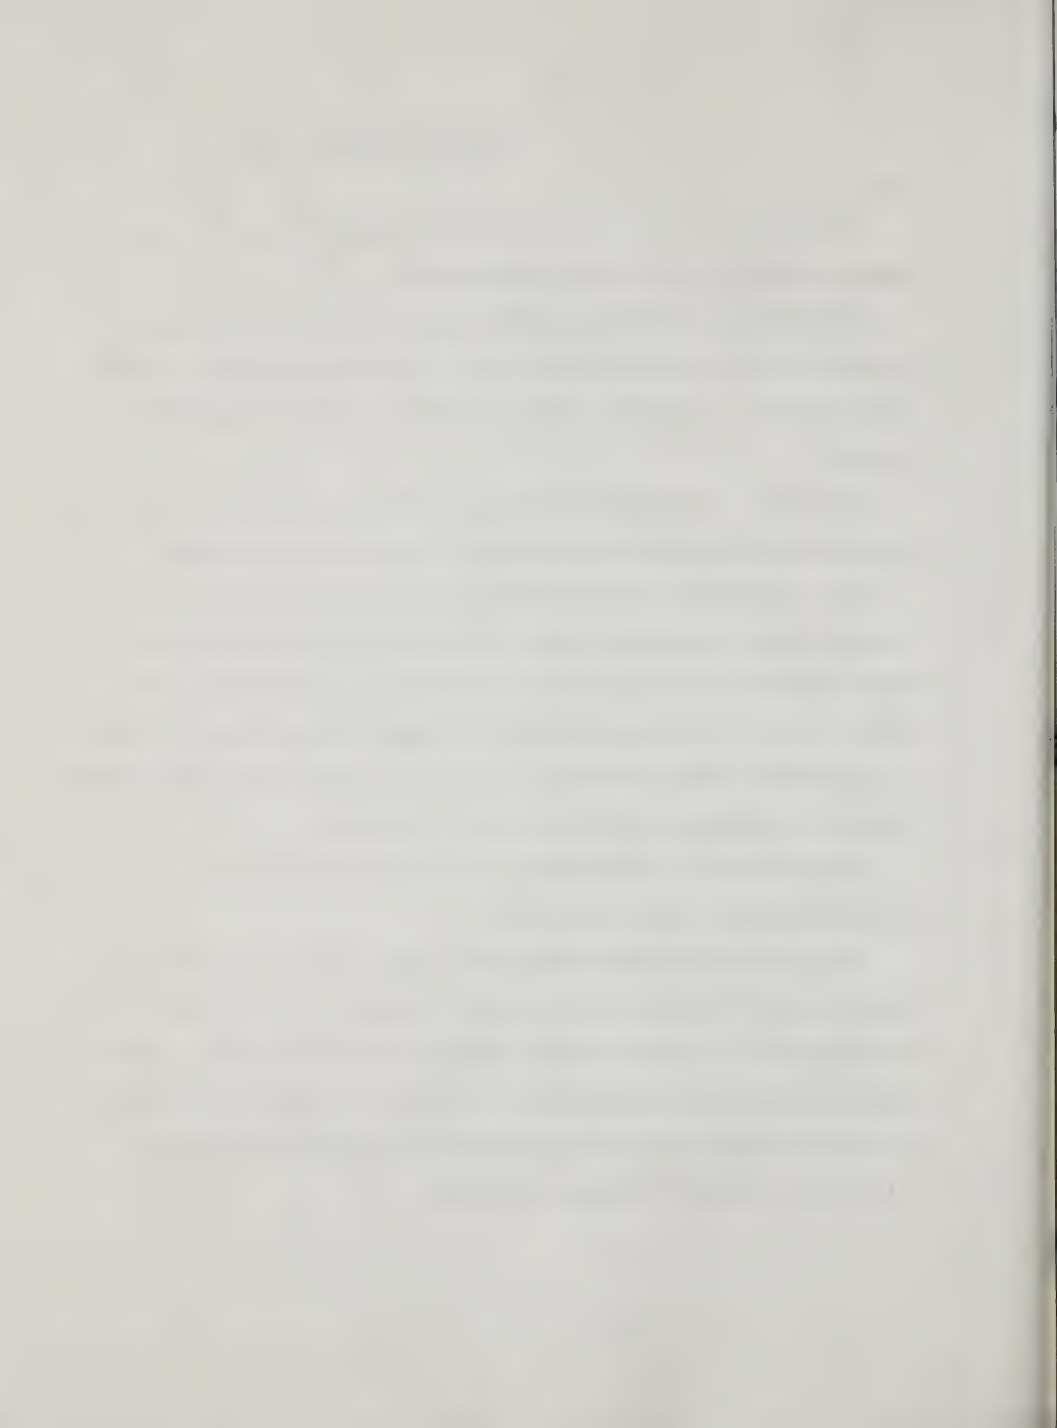

The furnace and ovens of the Stone Glass house are finished, and we will certainly be ready to make glass on the first of September. The Pot House work will go on fast, twenty one barrels of more clay arrived two days ago

The Masons & carpenters are at work at the new houses in the rear, they will be finished before the 1st. September with other improvements.

The characters that you have engaged pleases me very well, I feel confident that you will have a Set, equal to any in the United States. I have agreeably to the arrangements communicated, engaged Wendt Smith & Sworer (who is on his way) as blowers and Finklerly having made his power, is employed for cutter, old Filius, Joe Filius, Peter Haines, Failen & young Stanger are employed as labourers and for the Pot room

Young Haines & Joe Filius may be reckoned on as blowers, if necessary and should you think proper.

You are very right in procuring the moulds, I wish you to have them complete. Mason informs me that he expects a quantity of clay from Germany, should it come reasonable, I will pay for it on demand. By this statement you will perceive that I am very glad your Hands are under way, and I hope you will follow soon as convenient - Inclosed you have my Bill on McIlwen, Hale & Davidson, on account.

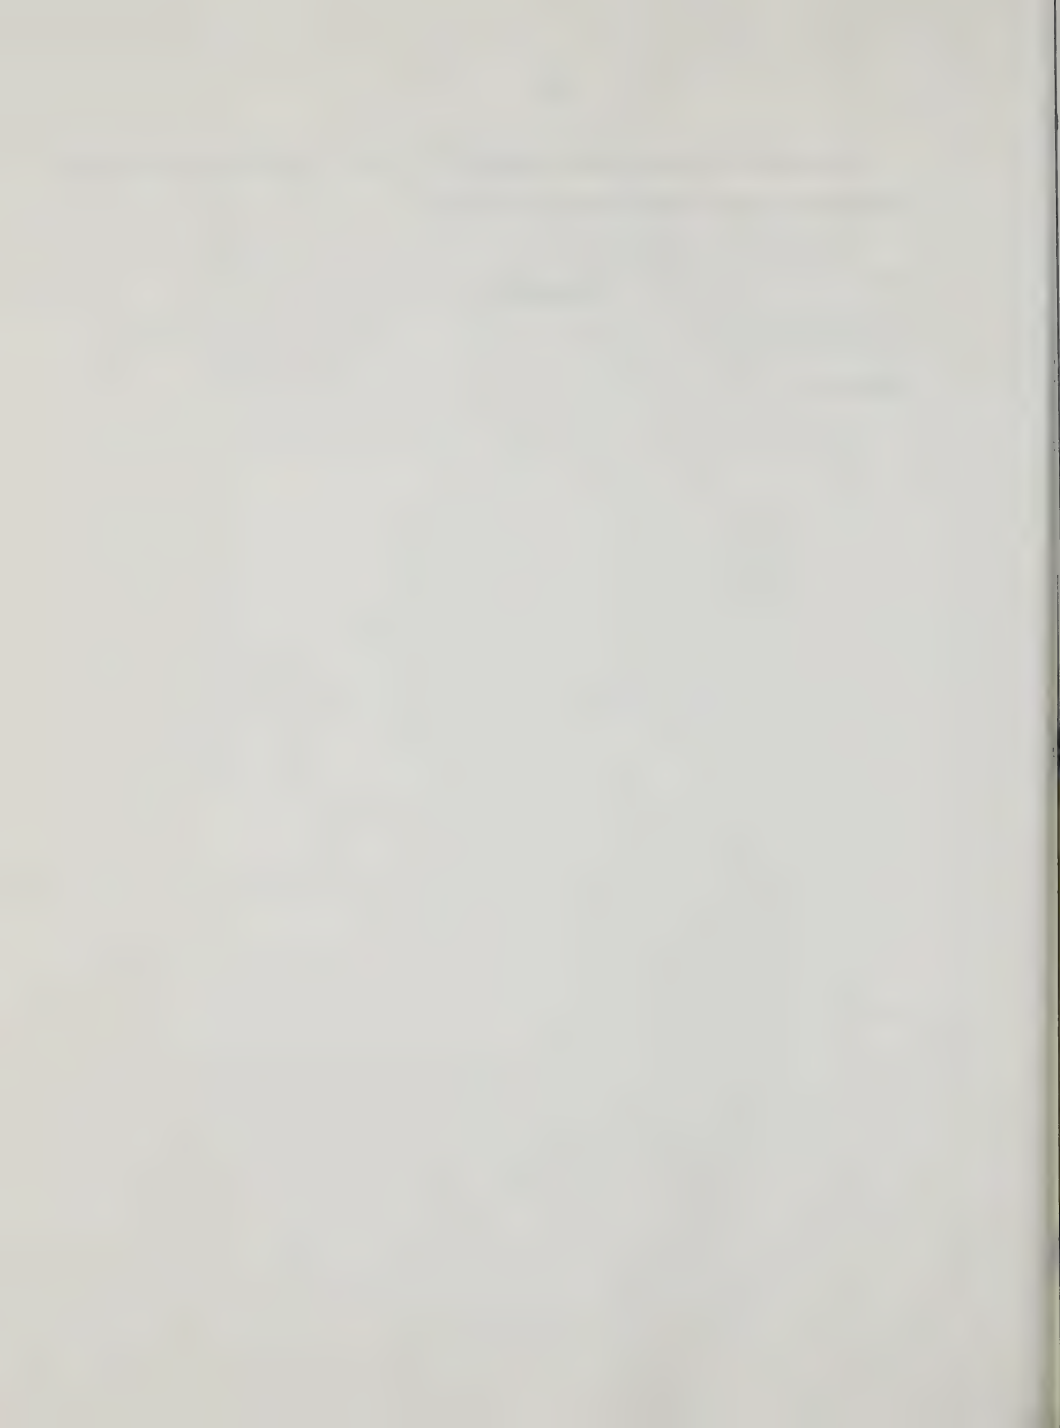

While I am under great obligation for your attention, in procuring
the Croft powder, I hope you will succeed --

dear Sir

I received your's of the 17th of June and cannot account for the miscarriage & delay of many of my letters to you.

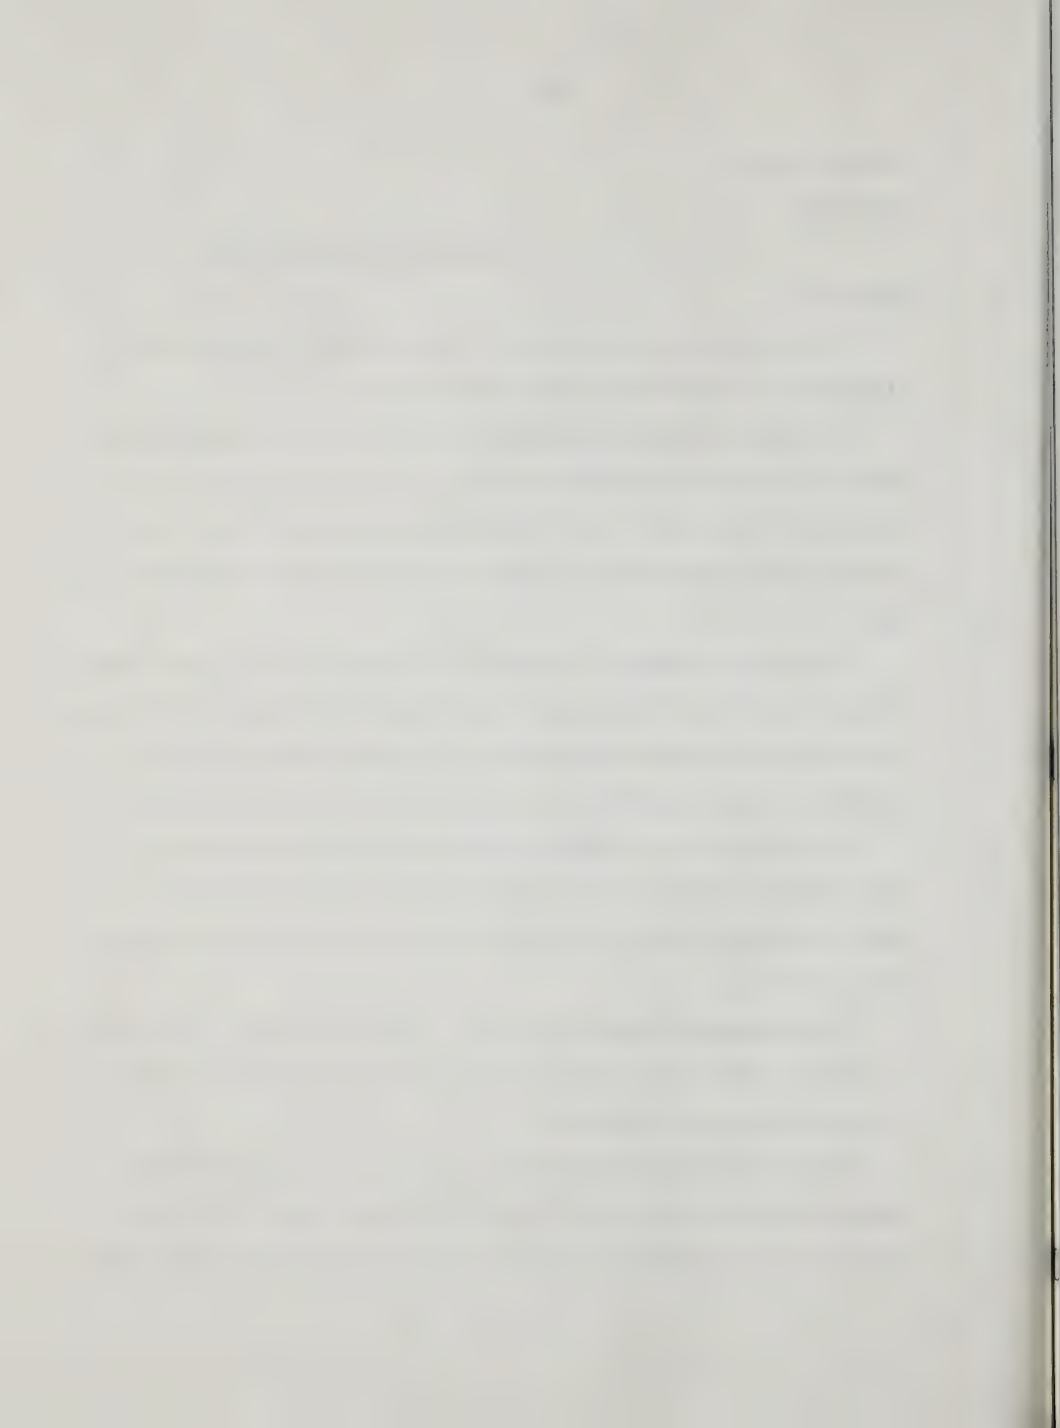

I am sorry you have not collected the debts, as remittance is much wanted - You have no doubt remitted for me agreeably to my letters of the month of March, to Mr John F. Watson Merchant. in New Orleans, all in your power, & I quantity of lead as you observe would do there very well.

I am greatly surprised that LeFlewer of Arkwona do not pay the money he owes me so long, if he has not paid you must have him Sued immediately, and you will order Suits against every person that remains so long in my debt - I request you will make me some payments soon as possible.

I am glad you have secured my lands - I wish you to procure me drafts and descriptions of the whole, including all you bought for me since I saw you. Employ some proper person to do this for you & pay him for his trouble.

I suspected your titles on the other side of the river Mississippi. I am glad you will save so much. I think you say 6000 acres Especially if you could secure a Lead mine

I requested in my former letter that you would enquire into the bargain between Mr Ferren and Mr Jones, for Vigoe's debt - Should the lands be worth the money you will have them ascertained and choose men

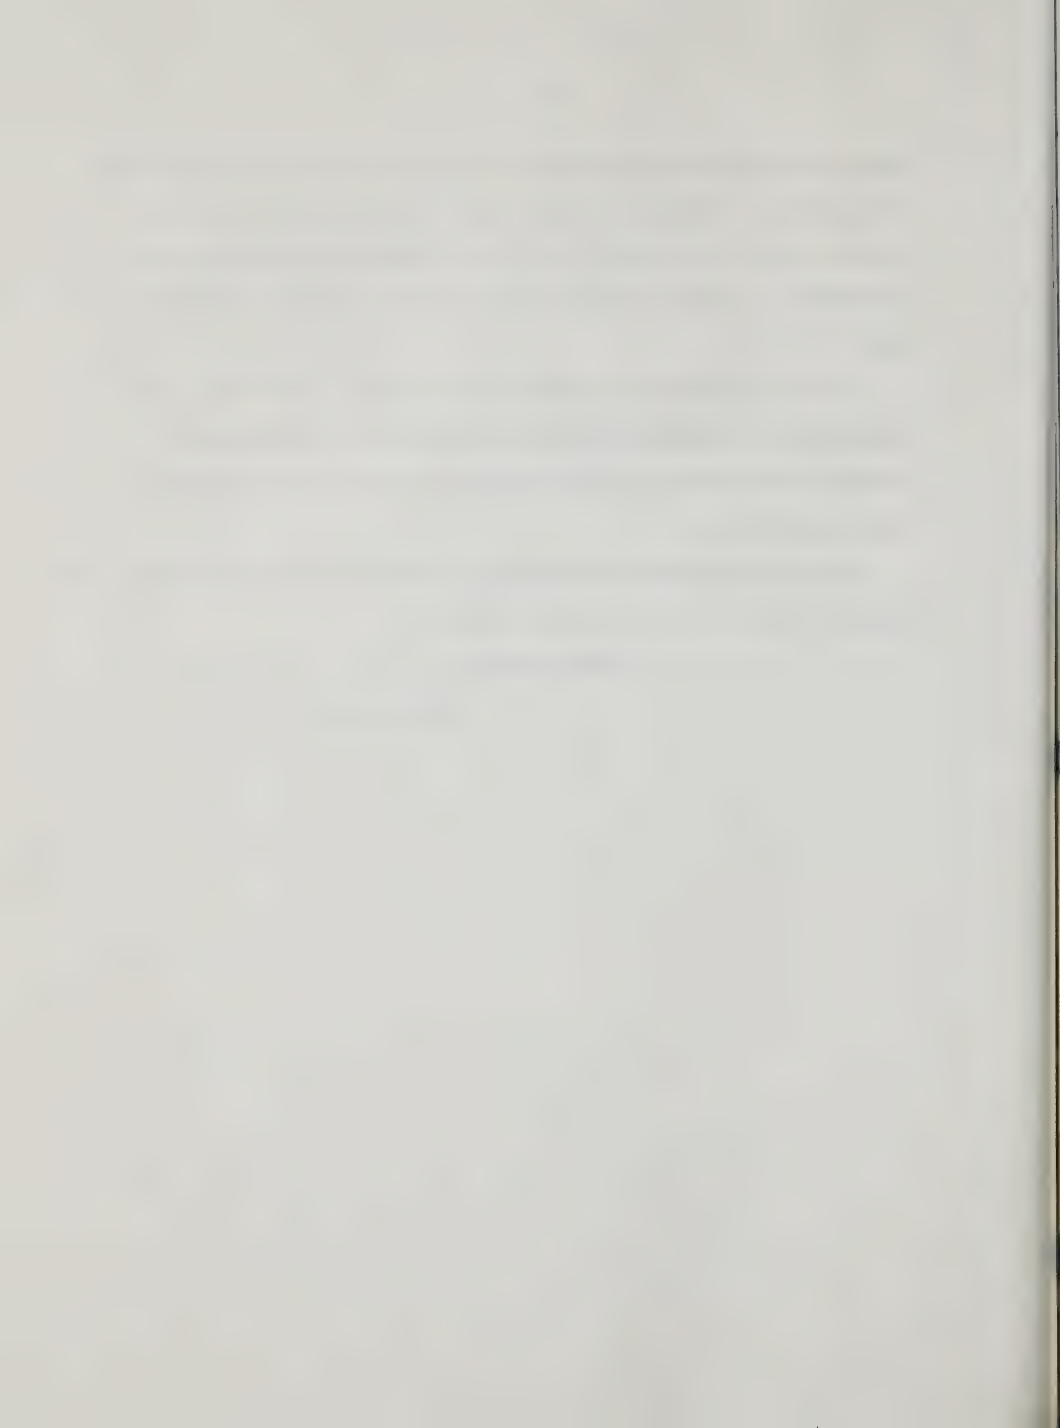

part of the undivided plantation to make up the number of acres, as you may judge best, agreeably to the articles - a copy of which you have enclosed, and get the titles from Mr Jones - should you approve of the transaction. I also send you a copy of Viego's account as it stood in 1800.

I wish to hear from you often - Your remarks on the trade is very natural but the government will not grant exclusive privilege at present, however they may favor the Traders in order to accommodate the Indians generally.

Let me have handsome remittances and your list of Goods suitable, and you will hear from me further on the subject

Sir,

Your letter of the 22d of August is received by the last mail, with the first advice of the Ship's destination for New Orleans - Your reports are certainly very satisfactory & we hope you are safely arrived at N. Orleans before this time.

Being very desirous to sell the Ship we wish to have her offered for sale, on receipt of this letter, or soon after as possible - she must not go under ten thousand dollars - you know her cost exceeded thirteen thousand. Messrs. Kenner & Henderson will furnish you with any necessary assistance - to them you will apply for advice

In case the Vessel will not sell at present, she will be chartered or take in freight for any of our Atlantic ports (Philadelphia in preference) or to the West Indies, so as to return in time to take in a Cargo of cotton for Liverpool in the Spring. It will be necessary for you to furnish us with very regular information, that we may effect the necessary insurance in all cases.

If William C. O'Hara returns with you in the ship he will be authorized to sell her with appurtenances, for not less than ten thousand dollars, if not you are authorized to dispose of her at New Orleans, or at any other port under the same stipulation taking care that the payment shall be prompt to be remitted to William Bell Merchant of Philadelphia for our account, or to us at this place.

On your settling the freight at New Orleans, you will have one fourth paid to Messrs. Kennor & Henderson for account of John Wilkins jun. and three fourths, transmitted to William Bell at Philadelphia for acct. of James O'Hara - in case of your taking in freight, Kennor & Henderson will furnish you Supplies & out fit. Enclosed you have a Statement of payments made for your Sailing as you desired.

Your family are in good health

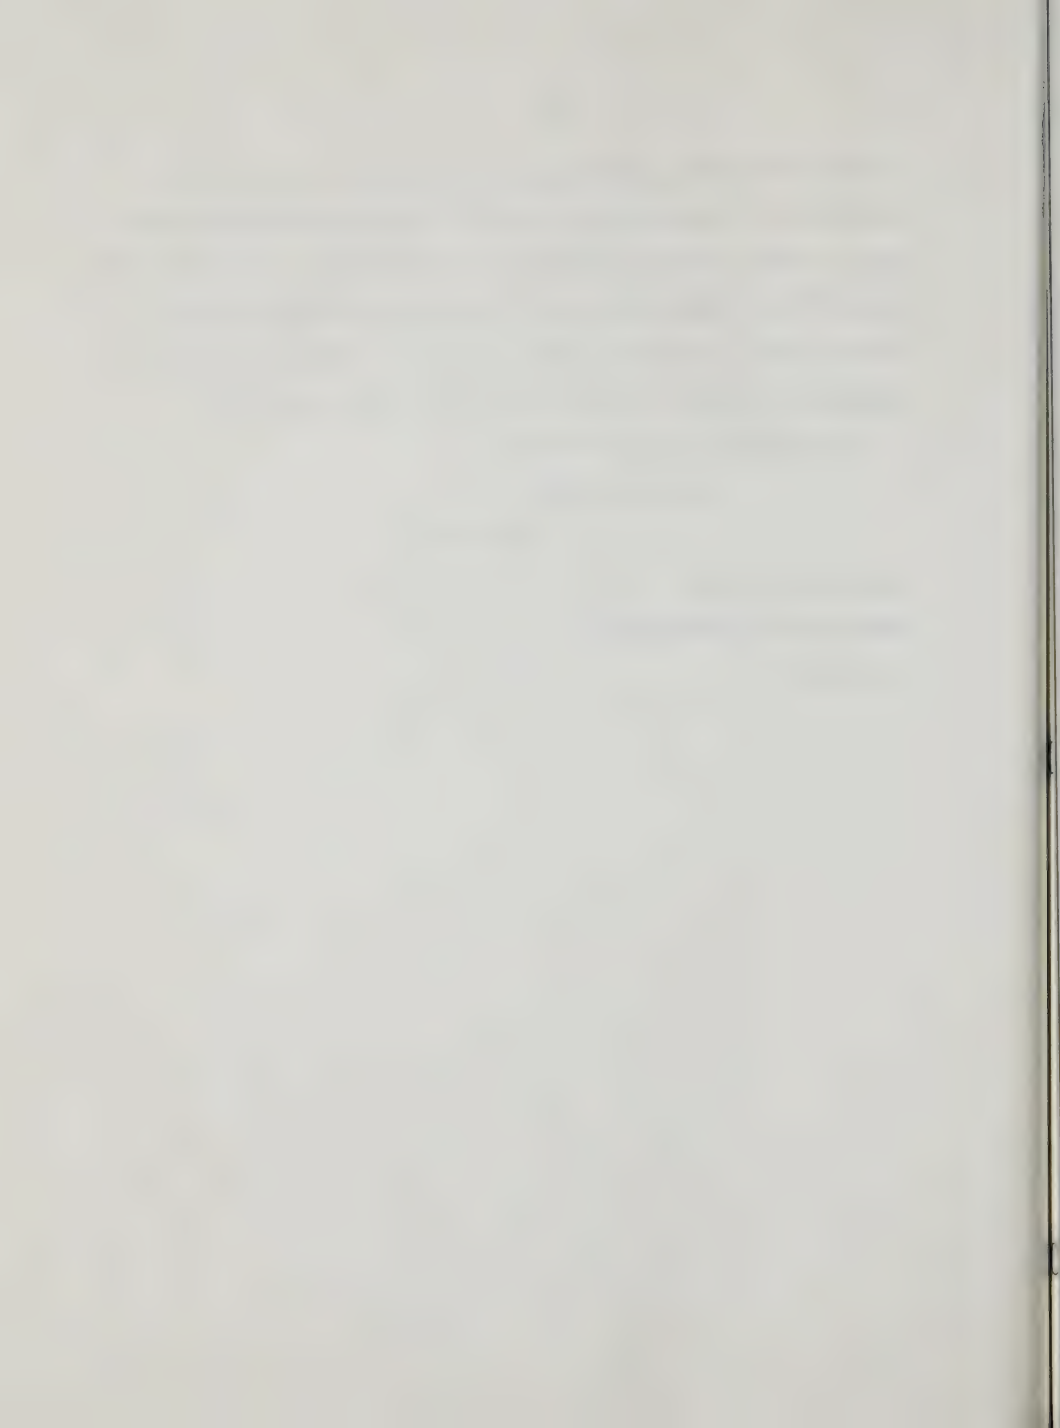

yours sincerely

James O'Hara

Dear Sir,

I wrote you on the 25th ulto since which you have not written to me. Several times I have been called upon for the amount of the Schooner's Sails, and I have been obliged to pay the amount to morrow. therefore you will by return of the mail send it to me.

My note for the premium on the General Butler, comes due the 29th November. You will send me a draft for the amount 65 dollars that I may know where to get the money. I paid the other day 39 dollars on account of Sailors wages. Several times I have called on McSheaff, but I have got no account from him.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the specific procedures and protocols that must be followed when conducting financial transactions. This includes details on how to properly document each transaction, the roles and responsibilities of the individuals involved, and the steps for reviewing and approving the records.

3. The third part provides a comprehensive overview of the organization's financial policies and procedures. This section covers a wide range of topics, including budgeting, forecasting, and the overall financial strategy. It also addresses the importance of regular financial reporting and the role of the finance department in monitoring the organization's financial health.

4. The fourth part discusses the various risks associated with financial mismanagement and the steps that should be taken to mitigate these risks. This includes identifying potential areas of vulnerability, implementing internal controls, and establishing a system for regular risk assessments.

5. The fifth part concludes the document by reiterating the importance of adherence to these policies and procedures. It stresses that consistent compliance is essential for the organization's long-term success and for maintaining the trust of its stakeholders.

Dear sir,

I received your's of the 29th ulto and as the strand and Hatch coat shipped by William on board the Louisiana cannot come to hand in season for my trading first plan -

You will sell the whole on their arrival - the articles were ordered of the first quality and judging by the amount they ought to be so - I know they will not bear a great profit - This will depend on the quantity on hand perhaps your Purveyor will purchase or they will Suit Guy Bryan being ordered purposely for the Mississippi trade

Sir

I received your letter of the 2d ulto informing of Joel Williams having obtained a Judgment against me for 1907 50/100 dollars. I am yet ignorant of the nature of his claims or how it is possible that I should be so long in this man's debt, without ever hearing of his demands. I have often applied thro' Mr Connor & Mr Grady for his statements, but have received none.

You mention Maragan's agency in your letter, which induced me to search such of his papers as are in my power, and there I find his vouchers for cash 1864 31/100 and other payments by Bullock making in the whole Dollars 3600.35 Cents exclusive of any interest - his receipts to Maragan are for cash in full.

I must yet request you to furnish me with a transcript of his specified account. I will pay all my just debts with great pleasure, and wish to be better satisfied on this procedure in particular.

If it is in your power to have the Judgment opened or to appeal, I will personally assist you at further trial - If you cannot succeed in this you will please to send me authentic copies of his account and inform me where the money must be paid and whether it will answer at this place that I may cause it to be paid without any inconvenience to the surety

I will write you again on receipt of your next advice.

By Thomas Forbes you will receive one boat loaded with flour & Flaxseed Oil, agreeably to enclosed Invoices, all of excellent quality and in the best order - you will be further advised in due time.

Thomas Forbes is employed by the trip. Twenty five dollars allowed for his passage to Baltimore or Philada. you can have this done for less & furnish him with the necessary provisions for his passage -

Michael Lynch is hired by the trip and will draw twenty dollrs from you on account. John Salters is also hired for the trip he may want a little money which may be advanced.

Gentlemen

On the 26th ulto. Thomas Forbes left this place with an excellent cargo consigned to your House - enclosed you have a copy of the Invoice.

From the present favorable prospect of good water, I expect this boat will arrive to a good market - I wish you to dispose of the whole as soon as possible and remit me the amount without delay, if this can be done with any degree of promptitude, this business may be extended & conducted regularly - It would be a very great accommodation could we obtain checks from your branch on the Bank of the Unit. States as we have done at Washington - Good bills on Philadelphia on short sight or Branch Bank Notes is preferred to sending specie, the Freight & Insurance is a great drawback

Our mails have been so irregular, that we did not hear of Ship Genl Butler till last week - we are very well pleased that she got freight for Liverpool & hope she is long under way for that port - She will be ordered back for your house, as soon as we hear of her sailing, part of her cargo is engaged at Liverpool, - you will please to order all that can be obtained, which will be preferred if necessary

I send a beautiful new Schooner off next week. Captn. Beebe commands this vessel. he is part owner with me, the Cargo is on my private account consigned to him - you will give him all the aid in your power It is our wish to sell the schooner for which he is fully authorized.

Should you be able to contract for more flour or whiskey than you will have on hand, you may calculate on receiving a few more cargoes from this place you will please to write me on receipt of this. let me know the real prices of flour, whiskey, oil, porter, window glass &c by every convenient opportunity.

William C. O'Hara has been some time in South Carolina & is expected home next week.

It will be necessary on your settlement with the Boatmen to make their accounts for every article that ought not to have been consumed on board I expect the best & small articles will be worth something - attending to this hint will be of service

Dear sir,

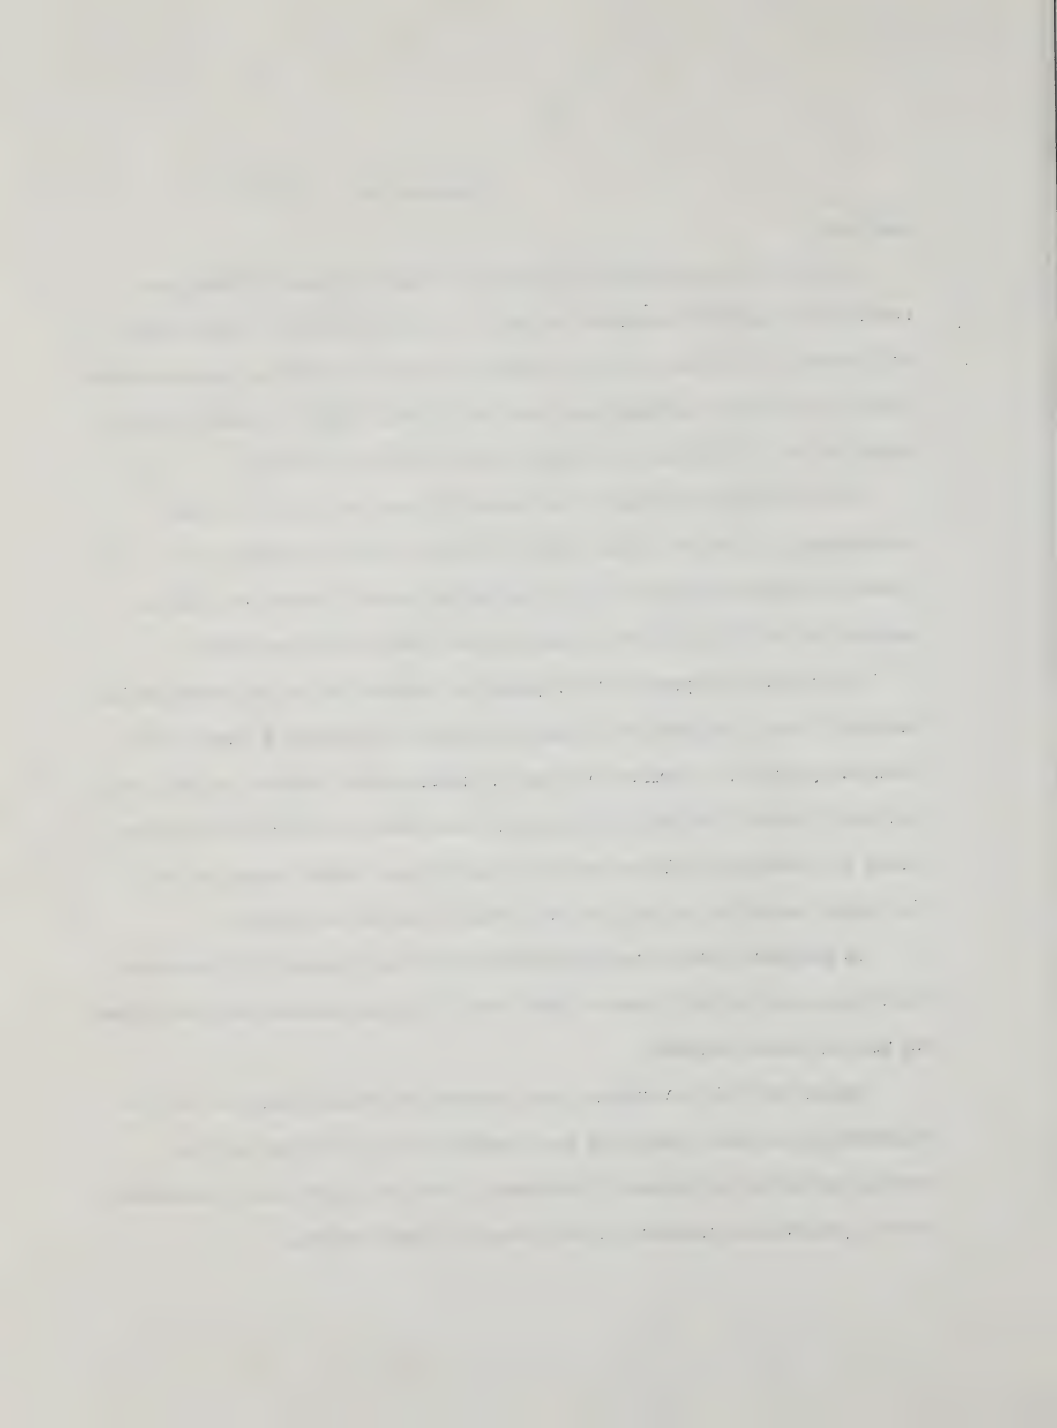

As you have determined on sailing it will be necessary that you now use all possible exertion to pass the Falls as we may expect very cold weather with Ice if not to shut the river, to obstruct the navigation, Should the weather continue open and temperate, I would approve of your going on day & night in the Ohio, of this you are to judge.

On your arrival at the Falls you will take in a pilot for the Mississippi, if you can find a very good one, if not Bradley your present Pilot is engaged to take you to San Madrid, there you will be certain of getting a proper person for the Natchez or New Orleans

If you can dispose of your porter at Louisville or at Mazon or New Madrid I have no objections it ought to bring 15 dollars p barrel, it must not go under 12 dolls. On your arrival at the Natchez you will sell all your porter & Whiskey if you can at the above prices or left at the store of Messrs John Wilkins jr & Co. and if your Whiskey does not sell for sixty cents per gallon, you will take it on to N. Orleans.

At ~~New~~ New Orleans you will dispose of the schooner both your own half Share and my half share of the Vessel & Appertenances for such price as you may think proper.

Should you fail in selling the Schooner you will employ her on the Mississippi, or for freight to the Savannah or in any other way on taking the advice of Kenner & Anderson, that may appear most advisable, safe & profitable, insuring in all cases of great risque.

You will please to write us by every possible opportunity. This may be of consequence, & in case you will be detained, you will place all the monies, you may have of mine in the hands of Kenner & Henderson

Wishing you safe & fortunate Yours sincerely

Dear sir

I am glad you received the Window glass in good time by Henry Nelson, the Invoice was mislaid & forgot

He received eight boxes 8 by 10 & 2 boxes 7 by 9 window glass, which you will receive on your own account at my prices here, that is 12 doll\$ for 8 by 10 & 11 for 7 by 9 or sell on my account at 13 dollars 50 cents for 8 by 10 and 12.50 for 7 by 9 on which you will have a commission 5 pc not exceeding those prices by the box.

Your Hollow Ware could not be sent, orders in this way require a little time. I do not make white glass, yet in quantity, I will send you a package of small articles to first opportunity the ware is better than the imported the colour & quality is the same as the window glass. I shall make whiter in the course of the summer. I am pleased with your giving my glass a trial at Chambersburgh & wish you to inform your brother of the optional prices, they will be the same at his House only adding the difference of carriage, from Bedford to Chambersburgh which will be a trifle

I am prepared to furnish you with any quantity you will please to order on a few days notice for packing Hollow Ware, window glass of common sizes is always ready.

THE HISTORY OF THE

18th Century

The history of the 18th century is a period of great change and development. It was a time when the ideas of the Enlightenment were spreading across Europe, and when the scientific revolution was reaching its peak. The 18th century was also a time of great political and social change, as the ideas of democracy and individual rights were being put into practice. The century was marked by the American Revolution, the French Revolution, and the Industrial Revolution. These events shaped the world as we know it today.

Gentlemen

I received yours of the 20th of Feb'y covering Benjamin's Morgan's bill on Chandler Price Esq. for \$55 dollars & fifty cents at 60 days sight for part of home freight due the genl Butler -

On the 26th January I consigned one boat to you, by Thos Forbes with flour & Mam-seed oil, which I hope arrived safe and to a good market - you were advised to sell the cargo & remit without delay.

I have also consigned to you two boats on the 16th of february by T. Henderson & on the 3rd of March 2 Boats by Robert Guthrie & Christopher Magee all loaded with flour wishing the whole to be well sold & the neat proceeds remitted to me as soon as possible. Mr. George Cochran descended from Charleston with 4 Boats on the 23rd of March & James Robertson with 4 more on the 28th - the last 8 boats are consigned to Mr Cochran, one of the number he owns to himself - he will however have to apply to your house for assistance and in case he cannot sell, the cargoes will be left with you to be disposed of. It is intended that Wm O'Hara will descend with one thousand barrels more by the first rise of the waters being now very low. You will readily perceive that I have entered considerably into our flour trade, but I am not very sanguine in my hopes of great profits. I wish the whole could be well sold as soon as possible, intending to pursue some thing in this way during the ensuing season or longer if justified -

The quantity now under way may be averaged to have cost six dollars exclusive of Insurance storage there, & commissions - I see by the Liverpool correspondence that cotton has fallen very low & flour is quoted very high - will not your shippers try the flour at present in preference?

I have informed you of Capt. Beebe's having descended with a new schooner and a quantity of flour, would you advise him to take out a cargo for the Savannah or any of the Islands, in this case I would have no objections but would prefer his selling cargo & schooner in your country; in either case I am satisfied you will afford him all the aid in your power.

I am gentlemen yours &c

Dear Sir

Being advised by letters from Liverpool that the Ship General Butler was to sail for Philadelphia on the 20th of April, contrary to our arrangements, we request you to pay very particular attention in receiving the Vessell and cargo from Captain Leins, immediately on her arrival and as he will no doubt, come off for this place to his family, you will appoint a proper person to take charge of her and report to us without delay -

having received no information on the subject of cargo or freight, we have only to request you to have such part as comes on freight properly delivered and accounted for, and such part as may be on account of the owners disposed of, such as this can be safely done, and hold the proceeds, subject to either of our Orders - it is our wish to sell the Ship General Butler. she has gained the name of being a fine Vessel and an excellent sailor, she cost us first upwards of twelve thousand Dollars, and her additional outfit at New Orleans being very extravagant - costs in the whole above sixteen thousand Dollars. We ordered her to be sold previous to those additions for not less than 10,000 Dollars, and are yet disposed to sell for any price exceeding this sum - We do not expect this Ship will sell in Philadelphia, you may however give her a fair trial, and if you cannot sell, we wish her sent on freight or charter, either directly to New Orleans or by any of the West Indies for New Orleans - you will (if any thing more favorable should offer) charter her for any place or port you may think proper, taking care to have insurance effected on the Ship -

It will be necessary to have a particular Inventory taken of every article appertaining to the ship, and advertise for sale. I am Sir
 Charles if you please, expecting to hear from you

We are yours sincerely

Sir,

I received your Statement and a/c Current of the 1st. instant and find it very Correct the \$409.90 received by Shiras was duly entered by Mr. Cochran, but owing to his absence it was not posted and this was the Cause of the apparent variance in my Ledger -

Your Credit has not, nor do I conceive it ever will suffer in my opinion the observations of your friend are void of candor and very ungenerous.

2 Boxes 12 by 16 and 3. 13 by 16 was ordered for you on the 11th. of May and none on hand, part is here ready packed and this day the Driver has the remainder this was intended to go by Mr. Oliver

Dear Sir

I did not receive your letter from Baltimore till yesterday, and having no doubt of your being at Baltimore before this time, I have not Ordered any insurance to be effected on the Schooner. You cannot get a price to please you - but perhaps you expect too great a return for the risk of your others, I can form no opinion, I wish the Schooner in or will come, as with all your industry your profits will not compensate you for your absence and great distance from your Family and home.

You will have a better chance of selling in Baltimore, than at Philadelphia at present, but in case of your sending her to Philadelphia, you will consign to Joseph Garcon Merchant there, with Orders to sell - Charter or send for freight, as he may think best - Write me to that purpose, soon as possible, and let me know your arrangements -

I have received your letter of the 11th. August and immediately made the necessary application to the best boat builders on the subject - you will certainly be accommodated in preference - I have ordered your Boat to be finished on a plan that will please Mrs. Pintard. this however will not be complete untill we have the pleasure of seeing her, orders could then be complied with

our Waters are this day lower than they have been for thirty five years and I believe since Noah, no craft of burthen can move.

our roads over the mountains to this country are better than roads I do therefore recommend that Mrs Pintard and family should proceed for this place without delay - as the making of our navigation must depend on the river or our roads on the prospect of rising water, your Boat shall be in hand it is not proper to have it kind of Boat long out of water - I shall expect to hear from you on your way

THEORY

1990

The first part of the paper discusses the theoretical background of the study. It starts with a brief overview of the concept of social capital, which is defined as the trust and cooperation between individuals in a community. This is followed by a discussion of the role of social capital in economic development, particularly in the context of small businesses and entrepreneurship. The paper then presents a theoretical framework that links social capital to the success of small businesses, suggesting that higher levels of social capital lead to better access to resources, information, and support, which in turn leads to higher performance and growth.

1991

The second part of the paper discusses the empirical findings of the study. It starts with a description of the sample and the data collection process, which involved a survey of small business owners in a specific region. The results of the survey are then presented, showing that there is a positive correlation between social capital and business performance. This finding is supported by a series of regression analyses that control for various factors that might influence business performance.

1992

The third part of the paper discusses the implications of the findings for policy and practice. It suggests that policymakers should focus on building social capital in communities, particularly in the context of small businesses. This can be done through a variety of measures, such as providing training and support to small business owners, creating networks and forums for them to interact, and promoting a culture of trust and cooperation.

Messrs Mann, Bernard & Co.,

Liverpool

Gentlemen,

Messrs. Warner & Henderson of New Orleans inform us 22 August, last that they had shipped to you on our acct. 50 Hhd first quality tobacco & 5002 hhd staves & Heading (calculating one fourth double) amounting three thousand two hundred & fifty nine Dollars fifty three cents, which they ordered Insurance on \$3452. -

We wrote you on the 22d Sept last to have Insurance effected, to cover eight thousand dollars on the Ship from N. Orleans to Liverpool & back to N. Orleans

We have agreed that Gen. Clark should draw on you for the proceeds of the Tobacco & Staves, on board the General Butler on account of owners - He has therefore drawn on you in favor of John Wilkins for £1000 - two sets of exchange, one dated 26 Janr 1846 for £1000 sterling, 60 days payable in London & the other dated 29. October 1846 for £1000 - st. 60 days sight payable in London - These bills you will charge to acct. of Gen. Clark & credit the proceeds of the tobacco & Staves to his account, together with the whole of the freight of this voyage by the General Butler. You will also charge his acct. with the premium of Insurance effected on the Ship Genl Butler from N. Orleans to Liverpool & her return to New Orleans. This \$5 of course will countermand the part of our letter of the 22d Sept. last which directed credit to each of our accounts for the proceeds of the cargo on account of owners,

& for the freight of the ship Genl. Butler in proportion to the shares of each in the ship.

We are Gentlemen very respectfully your ob. serv.

Sir

I am favored with your letter of the 11th inst. relating to Ensign John Paine formerly of the levies, as I was not with the levies. I have no knowledge of the circumstances alluded to in your letter.

I know an Ensign Paine with Gen. Wayne's army, who arrived at this place in the summer of 1792. His father lived in the neighborhood within a few miles of Harrisburgh - Our representative from Lancaster, Pa. might very probably be able to give you the necessary information; and should I become better informed, I shall write to you with great pleasure.

Sir

Your letter by 14th encloser with one hundred dollars, and your letter of the 10th Inst. has been received.

I have had no Glass of 8 by 10. on hand since I received your letter. therefore could not send it, all the other sizes are in stock, your whole order, would certainly be completed if you wish.

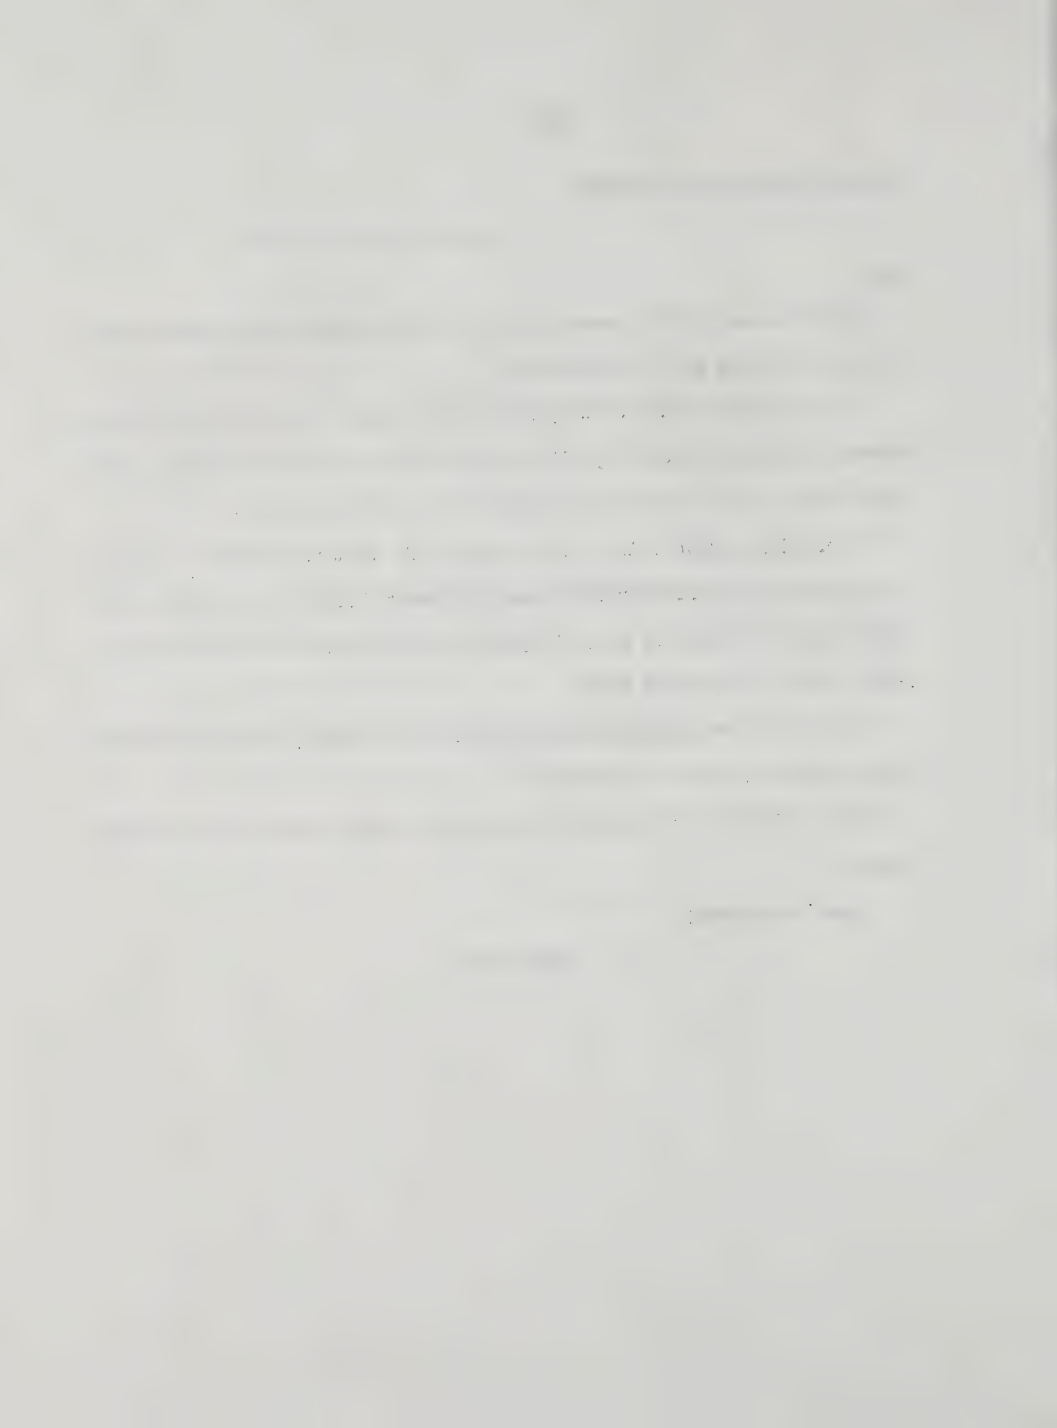

You will receive this by the return mail, that no time may be lost in your accepting the Overtures from New Geneva being considerably more reasonable, as stated by you. My price at this place for 8 by 10. will not be under \$12 per 100 feet.

Should you be disappointed in your offered Supply, I will furnish you with pleasure as soon as possible

You will please to write a line on this subject, when you may think proper

Yours sincerely

Gentlemen;

I have received your's of the 7th ult. with your bill on Gilbert & John Applemail of New York, for one thousand Dollars, at sixty days sight. Your statement and account current was also received a few days ago. The balance of this perplexing business is in requisition and expected every post.

You will receive enclosed John W. Pintard's draft on Judge Prevost, endorsed by me for two hundred dollars, which you will please to collect and remit me in your Branch Bank Notes. I wish ~~you~~ all your remittances had been in this way.

I hope the General Butler will be returned to New Orleans before this reaches you, that you will have her cargo for Liverpool ready, and order her agreeably to the arrangement in your last letter to the ~~same~~, with which they are well satisfied. Your account current has not been yet particularly examined.

1. The first part of the paper discusses the importance of the study of the history of the English language. It is argued that the study of the history of the English language is essential for a full understanding of the language and its development. The paper then goes on to discuss the various factors which have influenced the development of the English language, such as the influence of other languages, the influence of the social and cultural environment, and the influence of the individual writers and speakers of the language.

2. The second part of the paper discusses the development of the English language from its earliest forms to the present day. It is argued that the English language has developed in a continuous and unbroken line, and that the various forms of the language are all part of the same family. The paper then goes on to discuss the various stages of the development of the English language, from the Old English period to the Middle English period, and from the Middle English period to the Modern English period.

3. The third part of the paper discusses the development of the English language in the United States. It is argued that the English language in the United States has developed in a unique way, and that it is different from the English language in other parts of the world. The paper then goes on to discuss the various factors which have influenced the development of the English language in the United States, such as the influence of other languages, the influence of the social and cultural environment, and the influence of the individual writers and speakers of the language.

4. The fourth part of the paper discusses the development of the English language in the future. It is argued that the English language will continue to develop, and that it will become even more important in the future. The paper then goes on to discuss the various factors which will influence the development of the English language in the future, such as the influence of other languages, the influence of the social and cultural environment, and the influence of the individual writers and speakers of the language.

THEORY

The first part of the theory is concerned with the general properties of the system. It is shown that the system is stable and that the solution is unique. The second part of the theory is concerned with the asymptotic behavior of the system. It is shown that the system converges to a steady state and that the convergence is exponential.

The third part of the theory is concerned with the numerical solution of the system. It is shown that the system can be solved using a finite difference method and that the solution is accurate. The fourth part of the theory is concerned with the application of the system to a specific problem. It is shown that the system can be used to solve a wide range of problems and that the solution is efficient.

The fifth part of the theory is concerned with the conclusion of the theory. It is shown that the system is a useful tool for solving a wide range of problems and that the solution is efficient. The sixth part of the theory is concerned with the bibliography of the theory. It is shown that the system is a useful tool for solving a wide range of problems and that the solution is efficient.

Sir,

Being informed by Mr Anselung that you expected a quantity of clay when he left Baltimore, and that he had engaged part for my use, I have wrote to Mr John Holmes to settle with you for all you have on hand to have it kept secured from the frost, and to send it on as soon as the season will permit

I wish you to order fifty [illeg.] for me as soon as convenient so that I may have it brought here in the course of next summer as you know it will not do to move it in frosty weather. Mr Holmes will be prepared to settle with you as may be necessary, and receive the clay. You will please to write me on this subject immediately, as it is very necessary for me to be prepared, early as April

In confidence that you will put this article on as low terms as may be reasonable

Dear Sir,

Inclosed you will receive a letter which you will please to hand to Mr. Tabes, whom I have requested to secure for me a few Hogsheds of clay for use of my Glass Works, which I wish you to receive in such way, that it must not be exposed to the frost which renders it useless. I paid Mr. Tabes \$16 p [illeg.] for the last I got, this was very high, it is however very important to have an immediate supply, on the best terms that can be procured. You will receive all he has on hand and pay him, or assume the amount as he may desire - One Wagon load may come in April and not sooner.

Should Mr. Tabes have disposed of all the clay he has imported, I have requested him to order a quantity for me by the first opportunity - which I shall request you to have received and forwarded to this place, as your carriage will be very low in the course of next summer, I wish to be immediately informed on this subject, as I must have a supply in April.

What has become of our schooner? how much will you give for my half? it cost me \$2300. -

Yours sincerely

Dear Sir

It has been unfavorable to me that the person who engaged to charter a boat to bring me a load of your sand failed in his engagement. I have in consequence been obliged to continue at making Hollow ware according to my intentions. -- The bearer Mr. Valentin has a large boat which is ascending above your place and has agreed to bring me down. I am confident you can procure it to be ready, by the return of his boat from the mountains. he will appoint the time of his return and you may rely on his engagement nearly as usual.

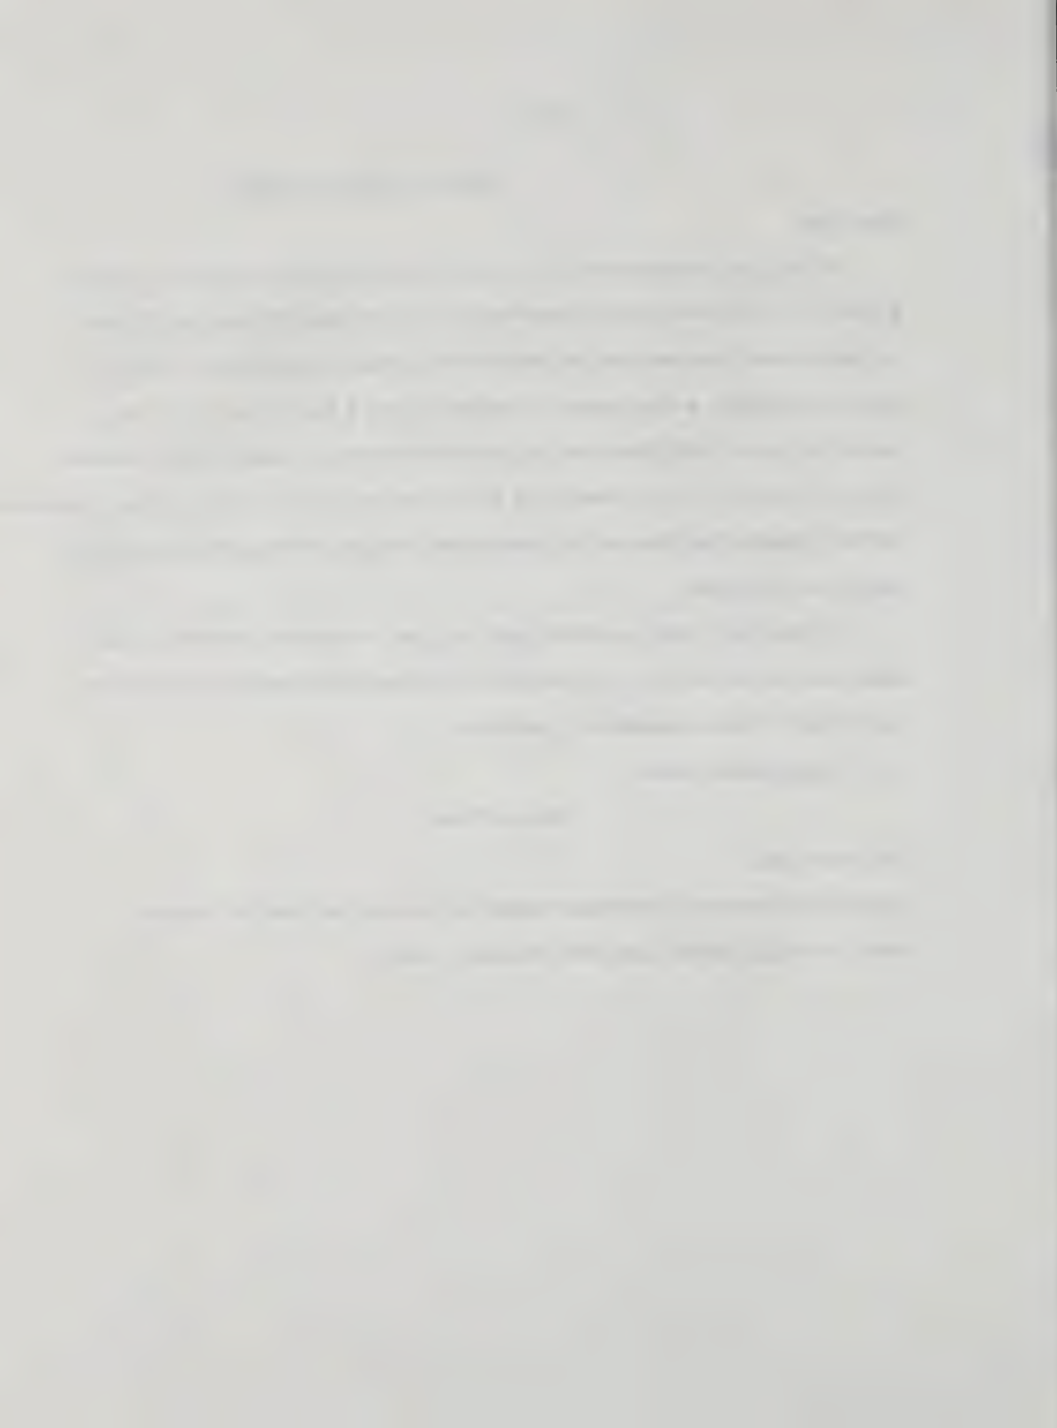

I still hope that Jarrett's boat has got a cargo & under way. You have only to let me know your charges & expenses for hiring the boat & I will immediately remit you.

Yours sincere friend

James O'Hara

Dear Sir,

By your letter of the 14th of March, I received your order for 1000
you will have written by the next mail, & on account of the
Petsey's Voyage being returned from the 1. Indies. This has misarranged
I have not the pleasure of a line from you since. The clay which you
procured for me from Mr Labac is now wanted here: I hope it is on the way,
& that the additional quantity ordered has arrived, this I wish you to
send on occasionally as carriage may be got on reasonable terms.

I think Mr Glen's charge is very unreasonable. Labac offers to make
any satisfaction that he paid him fees to his satisfaction in presence of
your Captain of the Petsey; however he is not to be satisfied - you will
please to settle this matter on such equitable terms as you can

I beg to have the clay sent on immediately, & to hear from you soon
as convenient

Yours Sincerely

I have this day received your letters of the 27th April & 4th May, and have accepted both your bills in favor of Thos. Wilson Cashier one for 1336 21/100 dollars and one at ten days for 2669 77/100 dolls. all which will be paid 4006 21/100 in due time

The cause of the protest in England was the House blending Genl. Willkin's former account with the account of the ship Genl. Butler, which was of no right to do, and of which I was totally ignorant.

Let me have your Statement of my account I hold you still in debt.

Dear Sir

I have been purchasing and building at this place, never so extensively than I contemplated when I saw you last. With your facilitation of properly having appreciated with you info as to propose selling these elegant lots you purchased for me in the city of Washington, as the sales can be made to advantage.

You are now requested to sell the same without delay for ready money or something very near it.

Should you wish to consult me first, write me your prospects as to profits & payments, the deeds will be executed here as you may wish.

I shall expect to hear from you in reasonable time with a return of our late account.

Dear Sir,

My letter received this day from Mr. William dated the 3d. inst. we are informed that the Ship Genl. Butler sailed from New Orleans for Greenock on the 29th of March with a cargo of cotton commanded by her Capt. Samuel Lake all in fine order. - We wish you to have insurance effected on the Ship Genl. Butler from New Orleans to Greenock (just in case she does not arrive there before the date of your policy) and also to have her covered at Greenock - from thence to New England, for about eight thousand dollars, on the Ship only.

We perceive by your current statements that Insurance got lower - this you will no doubt have done on the best terms.

Yours Sincerely

Dr sir,

I am favored with your's of the 29th ultimo & request that you could not send on the clay, which I am now in great want of having waiting in order to give you'r a fair trial.

Being aware that waggons could not be had readily with you, I expected by sending the clay to Baltimore it would come on with certainty & less expense.

Now Sir if you can possibly forward me twenty barrels by either way without delay, you will lay me under great obligations as my Glass Works are now stopped by disappointment in this essential article.

You consign in case you send by Baltimore to Saml Lewis Miller, merchant there, he will forward it from thence. Send one wagon load directly on if possible - inclosed you will receive fifty dollars - and you will please to order twenty barrels more to all proposed elsewhere - of the 20 lbs first mentioned - to be sent on as soon as soon after as possible, either by Waggons or by Baltimore, as you may think best expedient, without any further advice from me, all Carriage will be paid here on delivery at the Works & any necessary advance that you may order shall be paid or remitted.

Your friendly attention to this objects at this time shall be thankfully acknowledged by

Dear Sir

Mr John Holmes Merch. of your City informed me by letter dated on the 25th December last, that he had received 23 or 24 barrels of German clay from Mr Labos, which he had promised to forward to this place on the 1st April - & writes me particularly by their following post, but cannot account for my disappointment in both the clay & letter I have not since heard from Mr Holmes

This is the greatest neglect I have ever experienced in consequence of which my Glass Works stopped early in May at the expense of £1000 Dollars, and may in all probability cause their total ruin

On this serious subject I must beg your friendly attention, that you will enquire whether Mr Holmes received such quantity of clay or not & in either case to have this or any other clay that Mr Labos has imported on my account sent on for me here without delay Carriage & expenses will be paid on delivery at my works here. Mr Holmes had the means of settling with Mr Labos this may have been also neglected which you will please to remedy for me I have written to John James Buchanan near New Castle to send on a quantity of clay from thence to be forwarded to you, which you will please to forward on as soon as possible.

I know you will execute this liberty, which is really an emergency & shall not be repeated if inconvenient to you

I received your's of the 28th ulto with \$440. the note (as you observe) will be due on the 2d. July. you have Credit for this sum and also for eight dollars accounted for to Barton & Co for deficient Pitchers.

Nothing can be done with glass in the mode you propose - my funds are out and demand unsatisfied, I wish you to inform me of your demands for your acct. and if your orders arrive in time your quantity will be reserved at all events. I cannot commence making before September. Your orders may probably be received in two weeks & may be supplied.

~~On the other side~~ On the other side you have my acct. & order against Frank Heiss of Lexington for glass which he carried away in a very cavalier manner in May 1866 - This man had obtained no credit from me, and when under way with his glass, he promised to remit the amt by Mr. Sumrell from Limestone.

I wish you to present this order and if Mr Heiss does not make immediate payment or give this note at 60 days with interest - you please to let me know.

I have altered the figure of No 6 by 10 from three hundred to four & changed packers

Dear Sir,

Inclosed you have Capt Lake's letter of the 17th ulto from Savannah reporting the Capture of the Ship Genl Butler by a Spanish Schooner on the 3d within Sixty miles of Savannah. Your Insurance office ought to have all the information that we may receive on this subject promptly as possible. You will therefore report to them such parts of this letter as you may think proper - The Paragraph in the commercial Register of the 15th cannot be correct. She must have sailed from Greenock and it is very improbable she would be sent into Caracas. You will receive Sam Butler's order on Thos. Dear Sir

Enclosed you will receive all the information we have received relative to the ship, Gen. Butler since she was captured. You will perceive that Kenner & Henderson the owners at New Orleans, intending to abandon that ship, the freight is not insured any where, you will notify your insurance office, with such of the enclosed letters as you may think proper, with assurance that it is with respect we approve of the arrangements made by Kenner & Henderson, and must abandon the ship Gen Butler to your underwriters, which we request you to have done in due form. The Capt. papers will be forwarded to you as they come to hand.

Gentlemen

We received your letter of the 28th Octr covering you, for Mann & Bernard in Liverpool which may not be forwarded as we had the Ship Gen. Butler insured in Phila but no insurance on the freight at any place. We regret that you did not recollect that we were to have this done in Phila as by your sending the papers to Liverpool, it will not be in our power to make any demand of our underwriters until they come to land. We have not heard of Capt. Lake since he left the Havannah. We did not hesitate in approving your arrangement in having the Ship Gen Butler chartered to the underwriters, which we ordered to be done immediately on recd. of yours. We decline bidding for this ship in case of her arrival at New Orleans and sale being made. No doubt you will secure for us such part of the return freight as can be obtained, and attend to every other part of our interest as may be in your power. If you have the necessary documents from the Capt or if you should receive them you will transmit them to Jos Carson Merchant Phila. in order to have this business brought to a close as soon as possible.

Yours &c

Gentlemen.

Enclosed you will receive the protest of your bill on John Kennedy and Cox Baltimore for non payment, for which with costs & damage you will please to give me credit. I have been long anxiously waiting for your final statement of my accounts and remittances for Ballance, being greatly wanted at present. You will please to observe that I am not concern'd in Mr George Cochran's business, nor acts. You must not draw any part of his, or any other persons debts with mine without my orders. I hope you have recovered Spitzers money, and that my Acts. with you may be closed as soon as possible

Pittsburgh Decr. 26th, 1867

Gentlemen.

I am favoured with yours of the 13th August last covering duplicates of your Acts current with the ship Gen. Butler and owners ^{by} which it appears that you persist in your extraordinary method of charging Gen. Wilkins's old balance of 793 $\frac{1}{2}$ to the ship, contrary to the order given on her being first consigned to your house in Liverpool, contrary to your first method of stating the Act vizt $\frac{3}{4}$ for James O'Hara and $\frac{1}{4}$ for John Wilkins, and contrary to every mercantile principle, and against which Gen. Wilkins solemnly protests. I will not attempt any remarks on this unprecedented mode of transfer at present by which you must be sensible, I have sustained great injury being entirely unacquainted with Gen. Wilkins's affairs with you. I drew bills on your house by which I sustained great damage. Now it is concluded that you insist upon my $\frac{3}{4}$ of the ship being liable for an unsettled balance said to be due before the ship was built and Gen. Wilkins positively declines having the acts. blended in any respect whatsoever. You will therefore please to repair all those damages and prevent any further inconvenience on this subject. State my Act. separate and unconnected with any other, for $\frac{3}{4}$ of the Ship Gen. Butler with proceeds of cargo & freight agreeable to the advice you recd. with the consignment to that purport, and which you will please furnish me with, and the balance you may find fairly due me. The Ship Gen. Butler being taken into La Vera Cruz, Kemner & Henderson has written to you as if the Ship had been insured there, and intended sending the papers to you, as our insurance was effected in Philadelphia. We request you to transmit such documents, as you may receive from them on Capt Lake, to Joe. Carson Merov. Philadelphia the ship being abandoned to the underwriters there.

Gentlemen

I am extremely sorry to inform you that I had the misfortune to be captured by a Spanish schooner on the third of this month about sixty miles to the northward of this place, they took me Mrs. Lako, & six of the people from the ship, and steered as they thought for this place, they kept in sight of the Ship the remaining part of that day on which we were taken and all the day following in the evening we were very close to the land but the weather being very bad could not distinguish it, in the course of the night they lost sight of the ship and in the morning found themselves near the port of Cavanas [Cancun], about fifty miles to the Westward of this place where they put in with the Schooner & left her as soon as the weather would permit and commenced my journey by land to this place, where I arrived on the twelfth with Mrs. Lako. I was kept in the house of the officer that took me as a prisoner until the 11th when I was liberated after I had made my declaration before the auditor of the marine, as soon as I was at liberty I waited on the Gentleman acting as American Consul and by his advice as well as many others I have put the business into the hands of Mr. Gray who formerly acted as consul for the U.S. for this port. I was captured under Bonapartes decree as they gave no other reason than that of coming from an English port. Certificates of the Cargoes being American property are attached to every bill of lading and all my papers are correct. I am not able at present to give you any account of what the issue may be, for the ship has neither been seen nor heard of since we lost sight of her from the Schooner. I am however authorized to inform you that it is the opinion of some of the first men here that our

capture was rash and ill-advised and that he (the Capt. of the Schooner) will be obliged to pay all damages, which he is very well able to do, being a very opulent man. I think it is very probable that the ship is captured in that case the captors must pay all damages and send me with the papers to where the ship is -- I left on board the ship three women and five children passengers, the mate, cook & steward, the schooner sent on board her four men and a prize master. For myself I am here without money or cloths every thing being left on board, the ship expecting to be at Savannah the day following that on which we were taken. I shall remain here until I can hear something of the ship which must be in a few days.

Sir,

I have waited very long for you to come in agreeable to your promise, but you have disappointed me many ways. You have the place in miserable order, and contrary to your many protestations you have been renting and selling coal in an extravagant manner, from which you must desist. Acct. for what you have done & repair the fences. As you know you must leave the whole in good order on the first day of April next.

Yours
